## Ninety-Eighth Annual Meeting : Winnipeg

**August 26, 27, 28, 29, 1930**

President—PROFESSOR W. HARVEY SMITH, M.A., M.D., C.M.

## HANDBOOK OF MEETING

*COOL RESTFULNESS IN THE*  
**Spanish Coffee Court**

Refreshment! Delicious food...fragrant coffee...the sweet tea...served in surroundings of picturesque decor. Here is the colorful quiet of an old world hacienda. From tables at windows a view of the city and the boundless prairie beyond. A delightful spot for lunch or tea...far from the madding crowd...yet in the centre of Winnipeg's shopping district.

*Seventh Floor, South*

**THE GRILL ROOM**

Here, too, is excellence of food and service in spacious surroundings of Elizabethan charm. *Fifth Floor, Donald*

# A useful Saline Aperient

Andrews Liver Salt is an ideal Saline aperient of pleasant taste, readily taken and well tolerated by the most delicate adult or child. It ensures an easy and complete evacuation without griping or tenesmus; it is not contra-indicated in the majority of diseases where constipation arises.

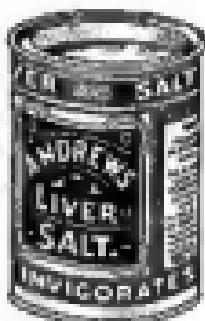

It acts by stimulating the intestinal glands thus increasing the fluid content of the bowel, producing gentle peristaltic contractions and a natural and efficient clearance of the colon and rectum without any unpleasant after effects.

In cases of fever, its brisk effervescent solution in water makes a refreshing and invigorating drink, relieving thirst, diluting the toxins and relieving the strain upon the kidneys.

*Andrews Liver Salt is prepared in England with the greatest possible care to ensure uniformity of composition, under hygienic conditions and from the purest ingredients obtainable, each batch being tested by our Staff Analyst.*

An 8-oz. tin will be sent free on request to the Canadian Agent:

JOHN A. HUSTON CO. LIMITED

## SUPREMACY!

The simplicity of design which distinguishes modern radiological equipment is a corollary to the introduction of the "Metalix" tube.

Complete X-ray protection conforming to International standards is provided without the use of cumbersome protective tube boxes, lead glass shields and the like.

In the busiest radiological departments, "Metalix" tubes are consistently giving results equal to the highest standard that modern science has yet achieved.

Present-day requirements demand the best; no X-ray equipment justifies the superlative unless the "Metalix" tube is employed.

# *The Adsorption Treatment for Putrefactive Toxaemias*

The following letter has been recently received

Messrs. Kaylene Limited.

Dear Sirs

I am in receipt of your sample of Kaylene, for which I thank you. I do not dispense and do not wish to be without some in the house.

My last sample was used on a patient suffering from acute Ptomaine Poisoning following a meal of shell-fish (mussel) at 10.30 p.m. Symptoms first appeared at 12.30 a.m., and when I saw him at 1.00 a.m. he was vomiting blood and passing almost pure blood per rectum. He had commenced cramps and nervous twitchings which would shortly have gone on to tonic convulsions. He was very collapsed and had a weak pulse. I gave him only Kaylene in cold water every quarter of an hour from 1.00 a.m. until 8.00 a.m., when I felt it safe to leave him. For the next two days Kaylene was given every one to two hours and was then followed by Kaylene-oil. No other medication of any sort was used, and he made an excellent recovery. This follows a somewhat similar case which I treated at the end of last year.

Yours faithfully,

—, M.B.

# DEAF DOCTORS AND DEAF PATIENTS

have proved "ARDENTE" a boon—a Heart Specialist whose work is so dependent on his hearing writes: "Ardente is a godsend to me", without "ARDENTE" he is to all intents and purposes, "stone" deaf; with "ARDENTE" he carries on his work, what better testimony to "ARDENTE" must it?

Mr. Dent makes a踏步走s especially for Deaf Doctors—the only one of its kind, which is simple and practical. Doctors whose work has required the deaf patient to prescribe "ARDENTE" say they know that "ARDENTE" is the only universal method in the whole deaf field (as most physicians may not even succeed with human publications) and they know when "ARDENTE" service

serves for the deaf. Many doctors who are deaf use "ARDENTE".

"ARDENTE" is entirely different and preferable and succeeds in helping differing cases. A full range covers the needs of those suffering from varying forms and degrees of deafness and hardness. Minutely adjusted to the requirements of the case for young, middle aged, or old, and so adjusted as to have the desired effect even in middle ear and nerve cases, bringing into action and stimulating the auditory nerves, enabling it to function naturally and serving entirely. "ARDENTE" can be used at rest at will, and is sold under guarantee.

"ARDENTE" is the choice of Doctor and patient, and is supplied mostly only from pharmacists and doctors' prescriptions.

"Ardente" is obtainable ONLY from Mr. R. H. Dent (its originator) who has no agents in Canada

# Why LACTOGEN is best for babies

## The Fat Content

In Lactogen, the new Modified Dried Milk, the amount of fat provided corresponds to that in maternal milk. The Lactogen process, however, divides the large fat globules of cow's milk until they are smaller even than those of breast milk. This permits easy absorption from the fine flaky curd formed during digestion.

Lactogen is produced by the famous House of Nestle's from the purest of fresh milk, modified by the addition of cream and lactose. It is dried by a special process which retains all the vitamins and valuable mineral salts, and is packed hygienically in air-tight tins, each containing a measure.

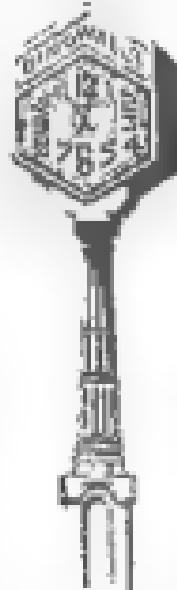

We shall be glad to send you  
a leaflet entitled "A New Point  
of View in Infant Feeding."

# *A Short account of the climate of Victoria and Southern Vancouver Island, British Columbia.*

*Considered from the point of view of the "Temporary Resident" and the "Permanent Resident"*

By Dr. G. W. H., in charge of Queen Alexandra Hospital,  
Penetanguishene Road, Colwoodhill, Vancouver Island

A question which frequently arises in the practice of any physician is what advice to give his patient on the subject of a suitable place at which to convalesce after illness or at a time when the physical and mental condition of the individual demands rest and relaxation following a period of strenuous work and anxiety.

The following short description of the climate of Victoria may give you some assistance on these lines and it is for this purpose that it is offered to the Medical Profession in Canada and the U.S.A.

The physical elements of a climate are one of the most important of many considerations which should guide us in our choice of where to go to recuperate after illness, to spend a holiday or to make our permanent home. We must at all times give due weight to those other aspects of our daily life which will have an important influence on our mental as well as our physical well-being to those I shall refer later.

Short & stated it may be said that a good climate for the maintenance of the health of our race is one in which we meet "with constant moderate variations in its principal factors."

The detailed consideration of climate conditions in any area involves an analysis of many factors such as average temperature, hours of sunshine, rainfall, purity of atmosphere, humidity, strength and direction of prevailing winds. It is not the purpose of this short article to attempt any such analyses but rather by a simple statement of facts to call attention to the well-recognised advantages that residents in Victoria and Southern Vancouver Island enjoy.

Let us first enquire how far the facts I shall state agree with the definition I have given of a good climate in other words, are there those constant moderate variations which will allow of the fair use of the term a good climate? The average temperature degree F. over a period of years in Victoria ranges from 39° in January to 60° in July at Shawnigan Lake 35° and at Cowichan Bay 37° to 63°.

The average of bright sunshine for fifteen years in Victoria has been 2,176 hours in the year in 1924, 2,206 were recorded or an average of six hours of bright sunshine for every day in the year.

It may I think be stated with confidence that the value of a climate is largely determined by the intensity of ultra-violet light, and that a regular dose of these rays is essential to human health. The recognition of the value of these ultra-violet rays in the solar spectrum is one of the great advances in modern medicine and while there is yet much to learn of the beneficial effects of these and other rays there can be no doubt whatever of the truth of the dictum of Dr. Ritter of Leiss in Switzerland "Every ray of the wave lengths in the solar spectrum finds in the varieties of tissues of our organism one which will absorb it and permit it to exercise its chemical action."

The benefit of a visit to the sun-side following ill-health has been known for a great many years and while there are many other causes in operation the fact remains the value of the radiation of these solar rays from the surface of the sea. The site of Victoria at the extreme south end of the island is markedly open to these radiations.

The value of sunlight naturally leads to a consideration of another factor in climate - purity of atmosphere. For it is well known that smoke dust and other impurities in the atmosphere greatly diminish or even entirely prevent these beneficial solar rays reaching the earth's surface. The decision some years ago to place the Hawaiian Observatory Observations near Victoria is in itself the best proof of atmospheric purity.

Rainfall and wind are factors in climate which we do not usually welcome and yet they are of great importance by reason of their purifying effect on the atmosphere and when used a more particularly concerned to the stimulating effect on our physical conditions.

A rainfall which over a period of forty two years has averaged 27.37 for the year a moderate of this total, 21.73 inches fall in the six winter months October to March and the balance 5.64 inches during the remaining spring and summer months.

The prevailing wind blowing off the Pacific Ocean for several months in the year is West to south-west and of an average velocity of 9 to 12 miles per hour.

The above facts are taken from the 1929 report of the Superintendent of the Hawaiian Meteorological Observatory at Victoria Vancouver Island and are serving evidence not only of the excellent climate of Victoria and the south end of the island, but also indicate clearly the existence of these important moderate variations in its physical factors which are of such great importance for health.

In support of what has already been said it will not be unsafe to refer to other facts which are of value in this connection.

A consideration of the mortality rate from all causes in Victoria to find a fair estimate of health conditions when we consider the large number of residents who have retired from active work to spend their later years in the city and vicinity. The City however, take the infant mortality rate and the total death rate from all communicable diseases.

The infant mortality rate in 1929 was 40.3 per 1,000 living births, an extremely low rate and far below that of eleven other great cities of Canada.

The death rate over a ten-year period (1920-1929) of the following diseases may be tabulated as follows:

	Total Deaths for 10 Years	Percent of Total Deaths All Causes
Diphtheria . . . . .	6	12
Scarlet Fever . . . . .	2	04
Whooping Cough . . . . .	11	23
Small-pox . . . . .	1	Negligible
Typhoid Fever . . . . .	6	1
Influenza . . . . .	103	21

Note: More than half the deaths from influenza occurred in 1920.

Can any city of equal size show a better health record, and may we not, in part at least, pay a well deserved tribute to the climate as an important factor?

And there is another question we may be asked: granted infant mortality is so low how do children and, maybe, delicate children thrive? To this I would reply and I speak from a fairly intimate knowledge of the subject in recent years: normal, healthy children and delicate children thrive in a surprising way if due and proper use is made of our abundant sunshine and the enormous possibilities of an open-air life for a large part of the year.

I have mentioned certain other considerations apart from climate, and their influence on our mental as well as physical well-being. It is not necessary for me to speak in detail of these, and I will do no more than shortly refer to them.

The figures I have already quoted are sufficient evidence of excellent sanitation, water supply and general hygiene conditions of life.

And lastly I would refer to those mental and physical occupations and relaxations from work which are so important to all of us, and especially to the temporary invalid and to those whose active work in life is done.

Victoria can supply these in abundance splendid hotel accommodation, especially in the greatly enlarged Canadian Pacific Empress Hotel, with its magnificent enclosed and heated sea-water swimming pool, the finest in Canada, healthy out-door amusements and sports, golf, tennis, fishing of the best, shooting, good roads and beautiful scenery.

It is unnecessary to say more for the temporary invalid, for the permanent resident, for the holiday-maker, Victoria and Southern Vancouver Island may well and rightly claim a pre-eminent position.

## DOCTORS THEMSELVES PRAISE "RYVITA CRISPBREAD"

Dr. Stanley M. W. J. "I am strongly  
in favour of RYVITA CRISPBREAD.  
It is a valuable food."

Dr. J. C. H. "This product seems  
to contain all the elements of  
a healthy diet. It is delicious &  
contains no fat or preservatives.

Dr. G. H. "I have never seen  
anything finer than RYVITA to eat. It is far superior from  
the point of view of health."

Dr. J. A. Stevenson. "An excellent  
product. I would like to see more  
doctors using it."

Dr. F. G. "I have eaten  
RYVITA CRISPBREAD for a long time now  
and can vouch for its deliciousness,  
with the highly  
fibreous texture."

Dr. J. C. H. "I have been  
eating RYVITA CRISPBREAD for some time now  
and can vouch for its deliciousness,  
with the highly  
fibreous texture."

Dr. J. C. H. "I have been  
eating RYVITA CRISPBREAD for some time now  
and can vouch for its deliciousness,

This prize was established to encourage research in general practice, and consists of certificate and a cheque for 50 guineas.

## **KATHERINE BISHOP HARMAN PRIZE**

12. Presentation of the Katherine Bishop Harman Prize to Dr Richard Robins Armstrong, London, and Dr Harold Burt-White, London, for their joint essay entitled "The Problem of Puerperal Sepsis". This prize was established for the encouragement of study and research directed to the diminution and avoidance of the risks to health and life that are apt to arise in pregnancy and child bearing. The prize consists of a certificate and a cheque for 80 pounds.

## **DAWSON WILLIAMS MEMORIAL PRIZE**

13. Presentation of Dawson Williams Memorial Award, established to commemorate the late Editor of the British Medical Journal. The object of the fund is to give a prize in connection with Pediatrics, and this year the first award will be made in the form of a cheque for fifty guineas. The recipient is Dr F. J. Poynton, who has been deemed to have done the best work in Pediatrics in the five years immediately preceding the date of the award.

## **PROCEDURAL APPOINTMENTS**

14. The President will give his Presidential Address.

15. A Vote of Thanks will be moved to the President for his Presidential Address.

---

# **Annual Meeting, 1931**

## **TELEPHONE SERVICE IN MANITOBA**

The lines of the Manitoba Telephone System extend to all inhabited parts of the Province, and are equipped with modern repeater equipment making it possible to communicate by telephone from any point in Manitoba to all points in Canada, United States, Mexico and the Continent.

Trans-Atlantic Telephone Service has been extended to the following points:

Great Britain	Cecilia
Germany	Gibraltar
Copenhagen, Denmark	Dublin
Oslo, Norway	Belfast
All points in Holland	Isle of Man
All points in Switzerland	Milan, Italy
All points in Belgium	Genoa and Turin, Italy
Danzig	All points in Czechoslovakia
Vienna, Austria	All points in Austria
Budapest, Hungary	Vatican City, Rome, and to many points in France and Italy
All points in Spain	
Luxembourg City	

There is a type of telephone service on out-of-town calls to suit every need, namely:

### **Station-to-Station Calls**

Where you will speak to anyone within reach at the distant telephone.

Reduced rates on Station-to-Station calls are effective from 7:00 p.m. to 8:30 p.m., and further reductions from 8:30 p.m. to 1:30 a.m.

### **Person-to-Person Calls**

Where you specify that a particular person is desired.

### **Phonograms**

Between all points in Manitoba.

### **Trans-Atlantic Telephone Service**

The same rates apply on Station-to-Station calls as on Person-to-Person calls.

Collect calls are not accepted.

Note.—Our Information Bureau located in the Main Lobby is for your convenience and to assist you in getting in touch with your friends. By registering with our Attendant at the Telephone Bureau, you will be assured of receiving your telephone calls from any local or distant point.

## **TELEGRAPH AND CABLE FACILITIES**

Both Railway Companies will have representatives in their respective offices adjoining the Registration Office, in the Winter Club, prepared to supply full information with regard to cables and telegrams and accept messages for despatch to all points. Telegraph messages may be either prepaid or charges collected at destination in Canada and the United States.

## Telegraph Rates from Winnipeg

Address of message and signature are not counted or charged.

## REGISTRATION OFFICE

The Registration Office is situated on the first floor of the Winter Club Building, and will be open as follows:

Monday, August 25th	1 p.m. to 6 p.m.
Tuesday, August 26th. . . . .	9 a.m. to 6 p.m.
Wednesday, August 27th. . . . .	9 a.m. to 6 p.m.
Thursday, August 28th. . . . .	9 a.m. to 6 p.m.
Friday, August 29th	9 a.m. to 5 p.m.

Members are requested to register their names at the Registration Office immediately on arrival.

Arrangements have been made that the tickets for all events, those for ladies included, will be issued at the Registration Office. On registration, members will receive the Handbook of the Meeting, The Book of Canada, and Catalogue of Scientific Exhibits, official badge and badges for ladies accompanying members.

Branches of the post office, railway steamship and telegraph companies and the flota of Montreal will be operated in conjunction with the Registration Office.

Each member, after registration, will be entitled to apply for two tickets for any entertainment or function. After all other members are supplied, it may be possible to allot extra tickets to

those members requiring them. Tickets will be issued in priority of application on production of membership card only.

See detailed programme for full information on all meetings, excursions, entertainments, etc.

The Information Bureau, adjoining Registration Office, will gladly answer any inquiries and furnish any further information desired.

### TICKETS FOR ENTERTAINMENTS, LUNCHEONS, DINNERS, Etc.

Ladies and gentlemen wearing the badge issued on registration will be admitted free to all events unless an admission charge appears on the programme.

Invitation cards or admission tickets may be obtained at the Registration Office at any time prior to the day named below, upon which a closing hour for disposal has been set.

Invitation cards for The National Temperance League Breakfast and Medical Missionary Breakfast will be available until 6:00 p.m. on the previous day.

Tickets for luncheons will be available until 11:00 a.m. on the day of the luncheon.

Tickets for Amateur Lacrosse semi-final game at Sherburn Park Tuesday August 26th, available at 75 cents each until 5 p.m. that day.

Tickets for afternoon tour will be on sale until 1:00 p.m. on Wednesday, August 27th.

Annual Dinner tickets, \$5.00 each, may be secured any time before 6:00 p.m. on Thursday, August 28th.

The Ice Carnival and Hockey Match tickets, \$1.00 each, will be on sale until 6:00 p.m. on Wednesday, August 27th.

Manitoba Horticultural Exposition tickets, 25 cents each, can be purchased daily. Morning session on Thursday August 28th and Friday August 29th, under special arrangement.

### BADGES

A badge of membership will be given to all who register, while special badges will be worn as follows:

President, Past-President and President-Elect—Gold enamel badge, royal blue ribbon.

Officers and Officials of the Association—Enamel badge, royal blue ribbon.

Local Officials—Chairmen and Secretaries of Committees—Enamel badge, crimson ribbon.

Local General Secretaries—Enamel badge, red ribbon with white edges.

President, Vice-Presidents and Secretaries of Sections—Enamel badge, green ribbon.

Officers of the Ladies' Committees will wear badges similar to those worn by the men.

Members and their wives residing in Winnipeg badge together with white ribbon stamped "Winnipeg".

Members and their wives from the British Empire other than Canada badge together with white ribbon stamped "Overseas".

## WRITING AND READING ROOMS

Writing rooms for both ladies and gentlemen will be provided in the Winter Club. The Ladies' Social Club contains a reading room in which daily papers, British, American and Canadian magazines will be available. Writing and reading rooms will also be found in the Clubs which have offered their privileges to R.M.A. and C.M.A. members.

## LUNCHEONS, TEAS, ETC.

Daily during the Meeting lunch and dinner will be served at the Winter Club. Tickets—Lunch 60c, Dinner \$1.00, on sale each morning at Registration Office.

For ladies accompanying members arrangements have been made for morning coffee and light refreshments at the Ladies' Social Club from 10.00 a.m.

The following luncheons and tea rooms are convenient to the centres of activity of the Meeting:

There are many other Hotels and Restaurants within a convenient radius.

## LIQUOR LAW IN MANITOBA.

All liquor sold in Manitoba for private consumption, must either be purchased on a permit from one of the stores of the Government Liquor Control Commission or in a beer parlor. Any person over 21 years of age may make application for a permit provided that such person has a permanent or temporary residence in the Province of Manitoba. Liquor may be purchased from the Commission stores either on the cash and carry or delivery system. The liquor is sold in sealed packages and must be carried directly to the permittee's residence or hotel room with the seal unbroken and must be consumed only at that residence. The term liquor includes beer, ale, wine and all potable alcohol.

Under our liquor legislation hotels may operate beer parlors in conjunction with the main hotel. These parlors are under strict supervision. Any male over 21 years of age may enter a beer parlor and purchase beer by the glass or bottle whether he is a permit holder or not. Beer purchased in a beer parlor must be consumed on the premises and it is an offence under the Act, to take such beer off the premises or into any other room of the hotel.

## OFFICIAL HOSPITALITY

The following clubs have very kindly offered honorary membership for the period of the Meeting to members of the Association. Members will be admitted on production of membership card.

Manitoba Club  
Carleton Club.  
Medical Arts Club.

## GOLF FACILITIES FOR MEMBERS

The following Clubs have granted honorary membership to visiting members of the Association, from Friday, August 2nd, to Friday, August 29th, 1930.

St. Charles Country Club.  
Niakwa Country Club.  
Pine Ridge Golf Club.  
Elmburn Golf Club.  
Winnipeg Golf Club.

## **THE ANNUAL DINNER OF THE ASSOCIATION**

The Annual Dinner will be held in the Hudson's Bay Company Store on Thursday, August 28th at 7:15 p.m.

The price of the ticket is \$5.00 including wine.

Tickets can be obtained at the Reception Room not later than 6:00 p.m. on Thursday Aug 28th.

The Princess Patricia's Canadian Light Infantry Band will play from 7:00 p.m. in the Dining Room.

Dinner will be served promptly at 7:15 p.m.

Ladies and a limited number of lay guests may be invited.

## HYMN

*This and all other hymns will be accompanied by the Princess  
Patricia's Band and conducted by Director of  
Music, Capt. T. W. James.*

O God, our help in ages past,  
Our hope for years to come,  
Our shelter from the stormy blast,  
And our eternal home!

Beneath the shadow of Thy throne  
Thy saints have dwelt secure;  
Sufficient is thine arm alone,  
And our defence is sure.

Before the hills in order stood  
Or earth received her frame  
From everlasting Thou art God.  
To endless years the same.

A thousand ages in Thy sight  
Are like an evening gone,  
Short as the watch that ends the night  
Before the rising sun.

Time, like an ever-rolling stream,  
Bears all its sons away,  
They fly forgotten as a dream  
Dies at the opening day

O God, our help in ages past,  
Our hope for years to come,  
Be Thou our guard while troubles last  
And our eternal home!

Amen.

*All shall stand with bowed heads and repeat the Lord's Prayer together*

*Afterward the Minister shall say:*

O Lord, open Thou our lips.

*Response—And our mouth shall shew forth Thy praise.*

M—O God, make speed to save us.

R—O Lord, make haste to help us.

M—Glory be to the Father, and to the Son and to the Holy Ghost.

R—As it was in the beginning is now, and ever shall be, world without end. Amen.

M—Praise ye the Lord!

R—The Lord's Name be praised.

*Then shall be sung Psalm 19, by the Choir, unaccompanied.*

- 1 The heavens declare the glory of God: and the firmament sheweth his handy work.
- 2 One day telleth another and one night certifieth another.
- 3 There is neither speech nor language: but their voices are heard among them.
- 4 Their sound is gone out unto all lands: and their words unto the ends of the world.
- 5 In them hath He set a tabernacle for the sun: which cometh forth as a bridegroom out of his chamber, and rejoiceth as a giant to run his course.
- 6 It goeth forth from the uttermost part of the heaven, and runneth about unto the end of it again: and there is nothing hid from the heat thereof.
- 7 The statutes of the Lord are right and rejoice the heart: the commandment of the Lord is pure and giveth light unto the eyes.
- 8 Who can tell how oft he offendeth: O cleanse Thou me from my secret faults.
- 9 Let the words of my mouth and the meditation of my heart be always acceptable in Thy sight.
- 10 O Lord: my strength and my redeemer.

*Glory be to the Father, and to the Son, and to the Holy Ghost; As it was in the beginning, is now, and ever shall be, world without end. Amen.*

LESSON St. Luke vii. 1-10

To be read by the President of the British Medical Association,  
Professor W. Harvey Smith.

Anthem by the Choir, unaccompanied.

THE CHERUBIC HYMN - - - - - Gretchaninoff

Holy, Holy, Holy, ever blessed Lord God Almighty,  
Holy, Holy, God in Three Persons, blessed Trinity

Saints and Martyrs bless and praise Thee,  
Angels and Arch-Angels praise Thee, singing,  
Heaven and earth are full of Thy great glory,  
Glory be to Thee, Glory be to Thee, O Lord.

Holy, Holy, Holy, ever blessed Lord God Almighty.  
Holy, Holy, God in Three Persons, blessed Trinity. Amen.

Glory be to God in the Highest, Glory to God the Father,  
Glory to the Son, and to the Holy Ghost. Alleluia.

Let us pray.

Minister.—The Lord be with you.

Response. And with thy spirit.

M.—O Lord, shew Thy mercy upon us.

R.—And grant us Thy salvation.

M.—O Lord, save the King.

R.—And mercifully hear us when we call upon Thee.

M.—Endue Thy Ministers with righteousness.

R.—And make Thy chosen people joyful.

M.—O Lord, save Thy people.

R.—And bless Thine inheritance.

M.—Give peace in our time, O Lord.

R.—Because there is none other that fighteth for us but only  
Thou, O God.

M.—O God, make clean our hearts within us.

R.—And take not Thy Holy Spirit from us.

Almighty God, who calledst Luke the physician, whose praise  
is in the Gospel, to be an Evangelist and Physician of the soul.  
May it please Thee that, by the wholesome medicines of the  
doctrine delivered by him, all the diseases of our souls may be  
healed, through the merits of Thy Son, Jesus Christ our Lord.  
Amen.

O, Almighty God, Who hast knit together Thine elect in one community and fellowship in the mystical body of Thy Son, Christ our Lord, grant us grace so to follow Thy blessed Saints in all virtuous and godly living, that we may come to those unspeakable joys which Thou hast prepared for them that unfeignedly love Thee, through Jesus Christ our Lord Amen.

## HYMN

Unto the hills around do I lift up  
    My longing eyes,  
O whence for me shall my salvation come.  
    From whence arise?  
From God the Lord doth come my certain aid,  
From God the Lord Who heaven and earth hath made.

He will not suffer that thy foot be moved.  
    Safe shalt thou be.  
No careless slumber shall His eyelids close,  
    Who keepeth thee.  
Behold our God, the Lord, He slumbereth na'er.  
Who keepeth Israel in His holy care.

From every evil shall He keep thy soul.  
    From every sin,  
Jehovah shall preserve thy going out,  
    Thy coming in.  
Above thee watching, He Whom we adore,  
Shall keep thee henceforth, yea, for evermore. Amen.

Note.—During the singing of this hymn a collection will be taken for the British Medical Association Charities, one-quarter of which will be devoted to the purpose of placing in the Medical College of Winnipeg some permanent memorial of the visit of the British Medical Association to Winnipeg.

---

## THE SERMON

*By His Grace the Archbishop of Rupert's Land,  
Primate of All Canada*

## HYMN

For all the Saints who from their labours rest,  
Who Thee by faith before the world confessed,  
Thy Name, O Jesus, be for ever blest.

Alleluia!

O blest communion! Fellowship divine!  
We feebly struggle, they in glory shine;  
Yet all are one in Thee, for all are Thine,

Alleluia!

The golden evening brightens in the West:  
Soon, soon to faithful warriors comes their rest,  
Sweet is the calm of Paradise the blear,

Alleluia!

But, lo! there breaks a yet more glorious day,  
The saints triumphant rise in bright array;  
The King of Glory passes on His way,

Alleluia!

From earth's wide bounds, from ocean's farthest coast,  
Through gates of pearl streams in the countless host,  
Singing to Father, Son and Holy Ghost.

Alleluia!

*Let us pray.*

Almighty God our Heavenly Father, we remember with thanksgiving before Thee today the Founders of the British Medical Association departed out of this present life. We thank Thee for what Thou didst enable them to do for the advancement of science and learning and for the healing and arresting of disease and suffering. We beseech Thee that, as they for their time bestowed generously of their time and their talents for the good of human-kind, so may we for our time faithfully use the results of their labours and in our turn add to the benefits which have come to us by their achievements. We ask all this for the sake of Jesus Christ our Lord. Amen.

---

## BENEDICTION

---

GOD SAVE THE KING

## ACADEMIC DRESS

Members of both Associations are requested to wear academic dress or uniform on the following occasions:

Tuesday, August 26th      Adjourned General Meeting and President's Address.

Official Religious Service.

Archbishop's Reception.

Presidential Reception.

Thursday, August 28th      Conferment of Honorary Degrees.

Friday, August 29th      Lectorian Oration.

Decorations and mementoes should be worn with formal evening dress.

Gowns and caps may be rented at the Winter Club (basement), at \$3.00 for the week. As the supply will be limited it is important that an early application for robes be made by those requiring them. All rented articles are to be returned to the Winter Club not later than Saturday, August 30th.

---

## THE BOOK OF CANADA

Under the editorship of Professor Chester Martin, M.A., LL.D., University of Toronto, W. Stewart Wallace, M.A., and T. C. Boutley, M.B., "The Book of Canada" (with numerous illustrations), has been published by the Canadian Medical Association. It presents authoritative articles on the place of meeting, the history of Canada, geology, mineral wealth, water powers and development, higher education, medical education and banking in Canada, wheat, the new North, the railways, Indians and national parks, together with articles on each of the nine provinces written by the premier of each province.

It is hoped that the book will be treasured as a memento of the meeting.

A copy will be presented to each member on registration at the Registration Office.

This book has been made possible by the generosity of the following friends of the Canadian Medical Association:

The Ontario Medical Association.

The Sun Life Assurance Company of Canada.

The Ontario Equitable Insurance Company.

The Great West Life Assurance Company.

The London Life Insurance Company.

The Confederation Life Association.

The Canada Life Assurance Company.

The Imperial Bank of Canada.

The Bank of Toronto.

The Bank of Nova Scotia.

The Canadian Bank of Commerce.

The Royal Bank of Canada.

The Dominion Bank.

## **TRANSPORTATION**

Deposit your Railway Certificates at Registration Office before 4:00 p.m., 28th August.

To secure half fare we require to present not less than 150 Certificates to Railways' Special Representative, less than that number means "No Half Fare". The reduction for those who have come from a considerable distance is considerable, turn in your Certificate early and co-operate in securing the benefit of reduced railroad fares.

Sign your Certificate and turn it in now.

Place a B.M.A. badge on your windshield, this will assist you when looking for Parking Space and in many other ways. Ask for one at Transportation Department in Registration Office.

Information regarding buses, cars and taxis can be obtained and vehicles hired at Transportation Office, inside Main Entrance to Winter Club. Telephone 22-331.

## **MOTORING FACILITIES**

Garages for members' cars are available and information can be obtained at Transportation Department in Registration Office.

The Manitoba Motor League, with offices at 204 Scott Block, Main Street, Telephone 22-447, have very kindly placed their services at the disposal of members and will furnish information with regard to roads and supply maps to anyone wearing the badge of the meeting.

A daily road report will be posted at the Registration Office through the courtesy of the Manitoba Motor League.

A British Medical Association adhesive badge for the windshield of members' cars will be provided at the first parking place used or can be obtained at the Transportation Department in the Registration Office.

## **MOTOR TOURIST CAMPS**

The City Camp, maintained by the Winnipeg Parks Board, at the corner of Dufferin and Arlington in the north-western part of the city. The charge is 50 cents a car per day. The Granite Club Camp, on the bank of the Assiniboine near Osborne Bridge and the Legislative Building, provides many facilities at a charge of \$1.00 a car per day. The St. Boniface-Norwood Camp on Marion Street, a few blocks east of the business centre of St. Boniface and Norwood, and two miles from the Parliament Building.

Winnipeg Tourist Cabin Camp, Pembina Highway. Cabins from \$1.50 to \$3.00 a day according to the number occupying them. Electric light, heated, shower baths and complete restaurant facilities. Telephone 43-470.

# Sports Programme

Wednesday, August 27th —Golf Competition for the Canadian Medical Association Cup, presented by the Ontario Medical Association for annual competition, and known as "The Ontario Cup", at Naxxa Country Club, Winnipeg, 8 a.m.

Thursday, August 28th Golf Competition for Ulster and Childe Cups, at St. Charles Country Club, Winnipeg, 8 a.m.

Friday, August 29th Ladies' Golf Competition for the Notta Ladies' Challenge Cup, at St. Charles Country Club, Winnipeg, 9.30 a.m.

Following the Competition for the Notta Ladies' Challenge Cup a Hidden Hole Competition will be held, for which all doctors' wives are eligible.

## Golf Competitions

### THE ONTARIO CUP

The Ontario Medical Association in 1927 presented to the Canadian Medical Association "The Ontario Cup," a perpetual trophy to be played for at the Annual Meeting of the Canadian Medical Association, and to be held by the winner until the next competition, the winner to be responsible for the delivery of the Cup to the next place of competition one week before the Annual Meeting. The following are the winners up to date:—

1927 — Dr Roy Thomas	Toronto, Ontario.
1928 — Dr J. J. MacLennan.....	New Glasgow, N.S.
1929 — Dr C. H. Keenan.....	Montreal, P.Q.

### ULSTER CUP

In 1909 the Ulster Medical Society presented to the British Medical Association a cup to be played for at Annual Meetings and to be won out and out by any member winning it three times in all or twice in succession. The following is the list of winners whose names are engraved on the base:—

1909 — Dr R. A. Shackleton.....	Hollywood.
1910 — Dr G. E. Hardip .....	London.
1911 — Dr W. J. MacCormick .....	Birmingham.
1912 — Mr Albert Lucas.....	Birmingham.
1913 — Dr H. L. Hatch .....	Piear.
1914 — Dr D. Barry King .....	London.
1920 — Mr Albert Lucas.....	Birmingham.
1921 — Mr S. T. Irwin .....	Birmingham.
1922 — Dr J. W. Macfarlane, M.C.....	Glasgow.
1923 — Dr T. B. Johnson.....	Cardiff.
1924 — Dr J. Henderson .....	Glasgow.
1925 — Dr G. Broad .....	Glasgow.
1926 — Dr J. M. Mitchell .....	Belfast.
1927 — Dr A. J. Cronin.....	London.
1928 — Dr J. Jones .....	Southerndown.
1929 — Dr Henry Holt.....	Stockport.

## CHILDE CUP

The late Mr C P Childe, F.R.C.S., M.R.C.P.E., President 1923-24, presented a cup, to be known as the "Childe Golf Cup," for competition at the Annual Meeting of the Association.

While offering the cup entirely free of conditions, he suggested the following, which the Council gladly accepted:

1. That it should be a Challenge Cup to be competed for annually at the same time as the Ulster Cup.
2. That the Competition be limited to members with a handicap of ten or over.
3. That the winner be a member with a handicap of ten or over making the best score in the Ulster Competition, provided that in the event of such a member winning the Ulster Cup the Childe Cup shall go to the member with a handicap of ten or over making the next best score.

The Competition was inaugurated at the Portsmouth Meeting. The winners up to date are:

1923	Dr J T D Kyffin	Whitechurch
1924	— Dr J J Buchan, M.O.H.	Bradford
1925	— Dr W V Wood, M.C.	Yatton, Somerset
1926	— Major-General Sir W Macpherson, K.C.M.G. C.B.	London
1927	Dr R Reid Duncan	Airforceham
1928	— Dr D Wardrop.	Rugby
1929	Dr D Wardrop.	Rugby

## Rules and Regulations for Play

### ONTARIO CUP

The Ontario Cup is open to all members of the British Medical Association and Canadian Medical Association, the maximum handicap allowed being 24 (Canadian) or the British equivalent.

The Competition will be held on the course of the Nokwa Country Club, Winnipeg, on Wednesday, August 27th, and will consist of one handicap medal round.

Play will commence at 8 a.m., and no cards will be issued after 3 p.m. In the event of a tie the score over the last nine holes shall determine the winner.

A miniature replica of the Cup and four other prizes will be presented by the Canadian Medical Association.

A special "Guest Prize" will be presented by the Winnipeg Medical Society for the best net score returned by anyone registered at the Annual Meeting who is ineligible to compete for the other prizes.

Entry to be made at Registration Desk before 6 p.m. on Tuesday, August 26th. Entrance fee \$1.00.

Transportation can be arranged at Registration Desk.  
Luncheon and Tea can be obtained at Club House.

## ULSTER AND CHILDE CUPS

Both cups will be played for during the same round. The Ulster Cup is open to all members of the Association, the maximum handicap allowed being 18. The Childe Cup is open to all members of the Association who have a handicap of 10 or over 18 again being the maximum allowed. Play in both cases is against bogey. If the Ulster Cup is won by any competitor with a handicap of 10 or over the Childe Cup will be presented to the player (with a handicap of 10 or over) with the next lowest score. The handicap figures (10 and 18) used, are on the British basis of handicapping. In the case of Canadian entries, the Canadian equivalent is understood.

Conditions of play are as follows:-

1 One round of 18 holes to be played on Thursday, August 28th, by kind invitation of St. Charles Country Club, Winnipeg.

2 Competitors are not permitted to put in previous play on the course on the day of competition.

3 Intending competitors are requested to furnish with their entry, a certificate signed by their Club Secretary, stating (a) their lowest handicap, (b), the bogey score of their own course, and (c) the length of their course.

(4) Entries to be made at Registration Desk before 6 p.m. on Wednesday, August 27th. Entrance fee, \$1.00.

(5) Competitors may choose their own partners, although partners will be arranged for by the Committee on notice being given at the time of entry.

(6) Play to commence at 8 a.m. No cards to be issued after 3 p.m.

A miniature replica of the Ulster Cup will be presented to the winner and a special prize donated by Mrs. W. Harvey Smith to the runner-up.

A miniature replica of the Childe Cup will be presented to the winner, and a special prize donated by the Manitoba Medical Association to the runner-up.

No player is eligible to receive more than one of these prizes.

Transportation can be arranged at Registration Desk.

Luncheon and Tea can be obtained at the Club House.

---

## NOTTS. LADIES' CHALLENGE CUP

Mrs. L. Owen Taylor, of Nottingham presented in 1926 a Cup, to be known as the "Notts. Ladies' Challenge Cup," for competition at the Annual Meeting of the Association. The competition was inaugurated at the Nottingham Meeting, and the following is the list of winners up to date.

1926—Dr Chedak Gregory, London.

1927—Mrs G. Lowry, Belfast.

1928—Miss Margaret Thomas, Swansea.

1929—Mrs. G. M. Benton, Manchester.

The conditions of play are as follows:

The Competition to be played under the Ladies' Golf Union Handicap Rules (Medal Round, 18 holes) during the Annual Meeting.

The winner to hold the Cup for 12 months.

In the event of a tie the last 9 holes to decide.

Entrance fee '10 cents, to be paid to the Secretary of the Local Ladies' Golf Committee.

A miniature replica of the Cup will be given to the winner, and a scratch prize has been donated by Mrs. W. Harvey Heath, wife of the President.

The Competition will be open to the following Lady members, wives of members, and daughters of members. Other relatives accompanying members to the meeting may be allowed to compete at the discretion of the Local Ladies' Golf Committee.

Competitors to send their full name address, and L.G.U. handicap, together with the entrance fee, to the Secretary of the Local Ladies' Golf Committee.

The Council of the British Medical Association to have power to amend and add to their rules, after consultation with the Ladies' Committee for the time being responsible for arranging the competition.

The Cup is the property of the Council of the B.M.A. and cannot be won outright.

The winner will be held responsible for the safety and insurance of the Cup until the next Annual Competition.

The Ladies' Golf Competition for the Notts Ladies' Challenge Cup and other prizes will take place on Friday, August 29th, at the St. Charles Country Club. Competitors should give their full names, addresses, and L.G.U. handicaps also stating qualifications to compete to Mrs. William Boyd, 77 Queen's Crescent, Winnipeg, or at the Ladies' Social Club, as early as possible on arrival.

Following the competition for the Notts Ladies' Challenge Cup a Holden Hale Competition will be held for which all doctors' wives are eligible.

Cars leave the Ladies' Social Club at 8.45 a.m.

A buffet lunch will be served at the St. Charles Country Club, after which the prizes will be presented.

#### A BRIEF HISTORY OF LACROSSE

Lacrosse is the oldest known athletic contest played on the American continent, and one of the oldest organized games in the world. When the first settlers arrived in this country they found the Indians playing a game which, next to war, held the chief place in their interest. It has been suggested that Lacrosse was taught them by the Hudsonians, but a study of the native records of Indian life shows the game to have been an widely distributed among the various tribes, and so diverse in type of playing implement, that there is little doubt that it was of native origin, developing slowly through many generations. The French colonists saw its chief implement, the stick, a strong resemblance to a bishop's

square and gave it the name of "La Crosse" which it has since borne.

The game as played by the Indians was a form of war maneuver against tribes who were pitted against each other. The goals were situated far apart, sometimes miles apart, and one part of the intervening distance was playing ground. Conflict often lasted a week, and the game was a glorious test of courage and endurance. The ball used was a leather filled with feathers, and about the size of a large orange at present.

Originally the game required a single post and a goal was made by hitting the post with the ball. Later two posts were used and goals were made by hitting the ball between them. The rest of the present game was influenced by the white man. The goal posts or points were delineated by a ring of players, the prototype of the modern goal守门员, and the attacking side had to beat their way through the ring.

From such a beginning the game has slowly developed to the present form which is now widely played in Canada, where it is the national game, the United States, Great Britain, Ireland and Australia. It has been an organized game among the colleges of the United States since 1869, though having its post from the first game the following characteristics might also be mentioned: permanent organization. The field of play is quite uniform, the ground having places more than a hundred acreage.

The game is played on a field of targets the same dimensions as a football gridiron. The goals which are now made of two leather goals are connected at the center by a long square with vertical posts and diagonal supports thereon. These goals are placed 110 yards apart on the long sides, and the two short sides are occupied with a distance of 40 yds. Between the goals, players of the attacking side are not permitted to go outside this distance, and goals scored when attacking players are within this distance do not count.

Boundaries of the playing field are marked with white lines in 10 feet and 100 yards being made for 30 or more yards of playing space around the goals. Across the lateral center of the field is located a horizontal "offside" line used to be utilized thus defining a certain distance from which the play was started. The dimensions of the ground are that at least three players must suffice to keep on the 100 yards and offside, and in hitting the goals require two goalsides to be in base line range. This is greatly improved the game making it impossible for a player to kick back his own players, or the goals of the other side, so as to stop the play and destroy the open passing which gives the original feature.

There have up to this time been 10 games on the market but, and there are 12 players on a side. The game is played in four periods of twenty minutes each, and a game of 100 minutes duration, or 10 minute period may be played.

This is designed to be a game of the outdoor or the court in the center of the field. The game corresponds to the football in football and the liquid in basketball. It is conducted by placing

the ball which is of solid white live rubber between the backs of the palms of the opposing players and at the sounding of the referee's whistle the arms are drawn apart with player's palms facing to control the ball and direct its movement in one of his opponents' players. The side controlling the ball as the result of the play attempts to carry it towards the opponents' goal. The ball may be carried on the stick or thrown to another player of the same side or if on the ground must be batted or kicked. The ball is thus advanced until it is shot into the opponent's goal, and a point scored, or until the opposing side seizes possession of it and in turn starts advancing it toward the other goal. The ball must not be touched with the hand. It can only save the goal keeper who has the privilege of stopping and turning it back in that manner.

It is the duty of the attacking players of the offence to advance the ball into the opponents' territory and over goals and this is accomplished by intensive and coordinated team play often the men scoring the goals being less responsible for these scores than other players who have maneuvered them into the right position and given them the ball.

The function of the defense is to keep the attack from advancing the ball. This is done by either intercepting a pass or body-blocking a runner. Body-blocking which corresponds to tackling in football can be practised only upon a man actually in possession of the ball or within reach of it. The chief member of the defense is the goal tender a position of great responsibility and requiring a high degree of proficiency in stick handling.

The Tuesday August 26th at 5:30 p.m. in Athlone Park, Portage Avenue the lacrosse match to be played will decide the team to represent Western Canada in the competition for the Mass Cup emblem of the amateur lacrosse championship of Canada. The final game will be played at 1 o'clock by teams representing Eastern and Western Canada. Tickets 75 cents may be obtained at Registration Office up to 5 p.m., Tuesday, August 26th.

## LAWN TENNIS

The following tennis clubs have kindly offered members of the Association, and ladies accompanying members, the privilege of playing on their courts during the Annual Meeting:

The Winnipeg Tennis Club, Roslyn Road

Canadian National Tennis Club, corner Broadway and South Streets.

Hudson's Bay Tennis Court, Broadway (between Port and Garry Streets).

Mrs. C. E. Lathcart, 46 Osborne Street, has also kindly put her tennis courts at the disposal of members of the Association and their ladies.

## SWIMMING

The pool at the Winnipeg Winter Club, headquarters of the meeting, will be open between 9 a.m. and 6 p.m.

# ICE CARNIVAL AND HOCKEY MATCH

## In The Amphitheatre, Whitchurch

Wednesday, August 27th, at 8.15 p.m. Tickets, \$1.00.

Arrangements have been made for the artificial ice in the Amphitheatre to be ready 16 days before the Annual Meeting, during which time our skating experts and hockeymen will be in training for the fancy ice skating and amateur hockey match.

Winnipeg is justly proud of its fancy skaters and hockeymen, and with the varied programme offered this event is one which should not be missed.

# Excursions

## AERIAL TOURS

Exactly sixty years ago Sir Garnet Wolseley, in command of the expedition to quell the disturbance in the Red River Settlement, arrived at Kenora. Three months of arduous travel by lake and portage had elapsed since leaving Toronto; there yet remained eight more days of hazardous river travel before the expedition would arrive at Fort Garry now Winnipeg.

Members of the British Medical Association may follow the line of Lord Wolseley's river route by air from Kenora to Winnipeg, but in their case it will be a matter, not of eight days, but of little more than two hours.

Going aboard the Western Canada Airways' Super-Fokker at Kenora or Minaki, the traveller can visualize in comfort from above the difficulties and dangers of the water route - roaring

Falls on Winnipeg River

rapids, foaming falls and laborious portages. The Red River Expedition had to make over fifty portages between Port Arthur and Winnipeg.

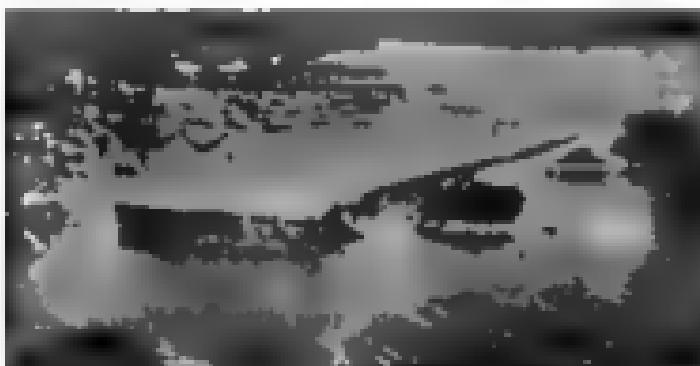

On each side of the river a vista of innumerable lakes stretches as far as the eye can see - the intervening country thickly covered with pine, poplar and spruce.

Apart from the historical interest of the route from Kenora to Winnipeg with its portages, forts and Indian reservations, the scenic beauty of the trip will well repay the traveller. Typical Ontario rock and forest characteristics terminate on the north side of the shore of Lake Winnipeg, to the south gradually merging through the marshes and low levels of the old names of the Winnipeg and Red Rivers into the lush oval farms and the Manitoba prairie.

Commercially this area was endowed by nature in one of her happiest moods of distribution. Minerals wealth untried with a supply of "White Coal" natural water power available immediately at hand, and this so extensive that it is estimated to

be sufficient for the requirements of a city five times the present size of Winnipeg.

These members of the travel party who are interested in the mining developments of this area are advised to take the Western

Pointe du Bois, Winnipeg River - City of Winnipeg Hydro-Electric Plant.

Canada Airways Aeroplane at Lac du Bonnet. This town lies 70 miles north-east of Winnipeg. Train and bus connections are available. The road is good. From Lac du Bonnet an air mail and passenger service is maintained into the Central Manitoba mining field. All the towns in this area are within 100 miles—or 50 minutes flight of Lac du Bonnet.

Thaw Creek, Winnipeg River - Winnipeg Electric Company's Hydro-Electric Plant.

While in Winnipeg members of the British Medical party will be able to take flights over the City of Winnipeg and out to the historic Lower Fort Garry. This fort is in an excellent state of preservation being by far the most complete of any of the Hudson Bay forts.

The arrangements for the flights from Jubaora and Mopahn to Winnipeg are tentative. Each Super Pukker plane carries six persons and pilot. Bookings should be in multiples of 6.

## INDIAN ENCAMPMENT

A band of Indians from the tribe of "Plain Creek" are encamped a short distance south-west of the City. There are 75 braves with their families and ponies, and the 22 tepees pitched in one row along the edge of the bush make a striking picture.

From noon on Tuesday, 26th August, until 4.00 p.m. Thursday, 28th August the encampment will be open for inspection by our members. These Indians are well and favourably known for their handcraft, at which they will be busy during their time in the camp, and samples of their work, now becoming rare, can be purchased direct from them.

On Wednesday, August 27th the programme will be

- 3.30 p.m. to 4.15 p.m. Inspection of Camp and handcraft.
- 4.15 p.m.—Indian Pony Race.
- 4.30 p.m.—Indian Pony Race.
- 5.00 p.m.—Induction of The Rt Hon. Lord Dawson of Penrith ("V.O." K.C.B., M.D., F.R.C.P., as a Chief of the tribe of "Plain Creek" with title "The Medicine Man of the Great White Father".
- 5.30 p.m. Indian Pony Race.

Tea will be served from 4.00 p.m. to 6.00 p.m.

The Local Committee, with the permission of the Dominion Government, have been able to bring the "Plain Creek" in from their Reserve to Winnipeg for three days, and feel satisfied our visitors will be interested in seeing them engaged in their everyday occupations. They return to their Reserve on Thursday, August 28th.

---

## NOTES ON INDIANS IN CANADA

Under a treaty with the Canadian Government in 1874, the Indians ceded all their land rights to the North-West Territories (as the western provinces were then called) except that certain allotments were set aside as Indian Reservations. In return the Government pays to each Indian a fixed sum yearly. This is known as "treaty money," and the Indians who receive it are styled "Treaty Indians." In making this treaty the Canadian Government saw to it that ample provision was made for the Indians in that a section of land viz., 640 acres was provided for each family of five, also this land was well selected for its agricultural possibilities.

Amongst the older Indians the hunt still provides a living for about 50% of their numbers. The younger generations, however, have in a large measure become agriculturists, and are successfully carrying out grain and stock farming, taking approximately 100,000 acres of land. They have about 30,000 head of cattle and 60,000 horses, many of the latter being of the "work" type. Their agricultural operations are carried on under the direction of the Government Indian Agents.

The younger generations are being educated by the state, no Indian boy or girl of school age being denied the opportunity of

CHIEF RED DOG  
(Custer)

CHIEF LITTLE SIOUX  
(Custer)

CHIEF BIG DARKNESS  
Arikara

CHIEF PASQUA  
(Custer)

attending an Indian boarding school or institute. The government also provides nurses who travel the reserves to instructing and giving help to the Indians. There are several well equipped hospitals and so there many of the Indian lodges are built surely & signs of their acceptance of the new mode of life.

The Indians presented at the pageant are from the tribe "Pisan Crees" of the approximate 12,000 Indians on the Western prairies their tribe numbers about 6,000. They have always remained loyal to the Government and even during the North West Rebellion 1885 when so many of the Indians there had sided by the hero leaders of some of the half-breeds." the Pisan Crees took a set stand.

During the First War the Indians were exempt from military service yet 35% of the male Indians of 16 years, of military age, enlisted and proved themselves good soldiers.

There is a general impression that the Red Indians are of a vanishing race. This is not true, especially of the Indians in Western Canada, who are actually increasing in numbers.

## LOWER FORT GARRY

Lower Fort Garry situated on the west bank of the Red River 20 miles below Winnipeg is the only stone fort of the Hudson's Bay Company remaining intact and is one of the most interesting relics in Western Canada of the early fur trading days. The two other stone forts of the Company were Fort Prince of Wales at Churchill destroyed by a French squadron under La Perouse in the war of 1770 and Upper Fort Garry remaining now only as a gateway in a little park behind the Fort Garry Hotel in Winnipeg.

Lower Fort Garry known to the traders of earlier days as "The Stone Fort" was constructed in 1831 by orders of Sir George Simpson and may be regarded as a monument to the amalgamation of the Hudson's Bay Company and the North West Company which took place in 1821. It was for some years the centre of great activity. Its rugged house saw yearly meetings of factors from far flung posts on the Bay and the Prairie tribes and all the surrounding nations. The brigades of traps had rendezvous here for the change of their furs, and crews of voyageurs held high revelry for a few days before relaunching their boats and returning to the wilderness.

A model farm a sawmill, flour mill and blacksmith shop were maintained on the grounds outside the fort which was a centre of early land settlement.

The Manitoba Expedition was quartered here on arrival at the Red River Settlement in 1870 and names of some of the soldiers can be seen carved on the river gateway. The first Indian treaty in the West was concluded at the fort on 3rd August, 1871.

The Hudson's Bay Company continued to trade at the post till 1911 two years later an arrangement was made for the use of the fort by the Motor Country Club. Delightful grounds and

gardens shaded by the old trees add to the historical charm. Visitors will find many objects of interest within the walls.

Garden Party and Open Air Concert at Lower Fort Garry, Friday August 26th from 3:00 to 5:00 p.m. The Band of the Princess Patricia's Canadian Light Infantry under Director of Music Capt T. W. James will play from 3:00 to 4:00 p.m., followed by Ukrainian Chorus (in costume) with Folk Singing, presentation of mounted Buffalo head to British Medical Association, and Folk Dancing by the Polish Gymnastic Sokol (in costume).

## HORTICULTURE IN MANITOBA

The Annual Exhibition of the Manitoba Horticultural Society will be opened on Tuesday August 26th at 8:30 p.m., by (Mrs.) Katherine Bishop Harman, M.B.B.S. F.R.C.S. Eng. This Exhibition will be open daily from 10:00 a.m. until 10:00 p.m. on 27th, 28th and 29th August.

horticulture is one of the youngest and fairest children in the family of Manitoba's agricultural arts. The pioneer settlers of fifty years ago, contented themselves mainly with the provision of the primary necessities of life. Whatever pleasure they may have had for the finer things of life had perforce to take second place.

But man does not live by bread alone. The love of flowers and trees and beauty soon asserted itself and the number of gardens multiplied apace.

The horticulture which Manitoba knows today has been evolved in the life of a generation. The trees on our streets were planted by those who today sit in their shade. How often now of beguiling gardens flourish where twenty years ago there was little more than a wilderness.

While our growing season is short, our growth is rapid. The colours of our flowers are varied. Our vegetables have a quality and flavour distinctly their own.

Todays Manitoba is pleased to show its honoured guests a little of the horticultural progress which our hard effort has made possible. What may yet be done does not yet appear.

## HOSPITAL VISITS

The various Hospitals in Winnipeg will be glad to show visitors through their establishments each day from 2:00 p.m. to 4:00 p.m.

Interesting visitors are asked to notify the Registration Officer before 10:00 a.m. and arrangements will be made with the hospital management for their reception.

## WINNIPEG GRAIN EXCHANGE

The Winnipeg Grain Exchange which handles the greatest volume of grain business of any exchange is of interest particularly at the opening. Hours are from 8:00 a.m. to 12:15 noon and anyone desiring to see the Bulls and Bears in the Pit will be welcome. The Badge of the Meeting will afford the necessary introduction.

## TOURS OF WINNIPEG

On Wednesday, August 27th, at 1.45 p.m., a specially conducted tour of the City will leave the Winter Club. There will be no calls made, the route to be followed will embrace the business area of the City and part of the residential district, and will cover a distance of approximately 41 miles, ending at the Indian Encampment in ample time for the Indian Pageant. Guides will be on each conveyance to point out the various business establishments and points of interest en route, as listed below. The fare for the tour will be \$1.00, no extras.

Thence through residential district to Indian Pageant.

For anyone who may desire to visit any of the business establishments in Winnipeg arrangements can be made on request to the Reception Committee at the Registration Office. We shall be glad to make such arrangements to suit the convenience of our guests on any afternoon, but would ask that the Reception Committee be informed before 10 a.m. each day.

## **DOMINION EXPERIMENTAL FARM**

A very cordial invitation is extended to visit the Dominion Experimental Farm at Morden, about two hours' automobile run from Winnipeg, which in August is well worthy of a visit, and in addition this visit can be made on a circular tour by automobile, giving an opportunity to view conditions on the prairies during what will probably be the harvest period.

## **HUDSON'S BAY COMPANY HISTORICAL EXHIBIT**

The Historical Exhibit of the Hudson's Bay Company, at Winnipeg, is situated on the fifth floor of the Company's saleroom on Portage Avenue, at Memoria Boulevard. The Exhibit is open, free of charge, to the general public during business hours. Its object is to depict by means of relics, pictures, documents, models, etc., the history of the Hudson's Bay Company, life in the fur trade, the story of the pioneer settlers and the customs, dress and industries of the aboriginal tribes.

This guide, with the corresponding numbers and direction marks on the cases, will enable the visitor to view the exhibit to the best advantage.

As the articles in the Exhibit are liberally supplied with descriptive labels, no attempt is made herein to do more than draw attention to the various divisions and to indicate the order in which these may be seen.

The Exhibit is arranged in the following principal divisions: Early History, Furs, Indian Handcraft, Life in the Service, Forts, Posts, Stores, Fights and Wars, Land and Settlement.

A framed notice directs attention to the object and divisions stated above.

Visitors are kindly requested to sign the register on the custodian's desk. The custodian will be pleased to answer enquiries.

# The Hospitals and Nursing Missions of Greater Winnipeg

## Winnipeg General Hospital

In 1871 one year after Manitoba had become a province, Lieutenant Governor Archibald, after a meeting of the citizens of Winnipeg to discuss matters of health, a Board of Health was formed and a resolution to begin hospital work. On December 10th, 1871 the Winnipeg General Hospital was organized. In 1873 the hospital became too small and hospital had to appeal for additional land, but it might logically appear to the Provincial Government, petitions of incorporation were taken out. At first the hospital board quarters in tribal buildings and there were many moves until it enough the grounds of the Red River prairie. Andrew McTernan and Dr. A. J. R. MacKenzie, the present site was located. On this a building costing \$65,000 was erected and formally opened in 1884. The Winnipeg General Hospital was one of the first in Canada to institute a training school for nurses, the first class graduating in 1889. A Nurses' Home was built in 1888, a small dispensary hospital in the same year an isolation hospital in 1892 and a surgical block in 1899. In 1904 a medical block was opened and the administration portion was remodeled. The full take of integration into the west between 1912 and 1913 was reflected in the expansion of the hospital. New buildings were completed in 1913.

From the institution of the Manitoba Medical College in 1888, the college and hospital have been closely associated with advantage to both. The college has become the medical school of the University of Manitoba, but the General Hospital remains a teaching hospital and in effect though not in name, a university hospital.

The Winnipeg General was the first hospital in Canada to organize a dental service department 1910. In 1919 the Provincial Government erected a Psychopathic Hospital on the grounds of the General Hospital. In 1922 a large addition was made to the Nurses' Home.

At the present time the hospital has accommodations for 700 patients. There is a private service open to the patients of any reputable physician or surgeon and a public service under the care of the hospital attending staff which numbers thirty-two. The out patient department is very large and an honorary staff of forty-five doctors subscribe to their use.

## St. Boniface Hospital

St. Boniface Hospital has the distinction of being the first hospital on the Canadian west. In 1871 the Grey Nuns opened the first hospital of four beds on the site of the present buildings.

which are situated on the east bank of the Red River opposite the junction of the Red and Assiniboine. The small frame building of 1871 has vanished, but in its place are the group of buildings, the large main edifice St. Boniface Hospital for infections, the new Nurses' Home, the Internes' Residence and the Power House which make the St. Boniface Hospital of today like the Winnipeg General Hospital it is a teaching hospital of the University of Manitoba. It can accommodate 600 patients.

The Grey Nuns owe their origin to the Venerable Marie-Marguerite Dufrost Lajemmerais Madame d' Youville and the Rev Louis M. Normand de Parcier one time Superior of the Recollets of St. Sulpice of Ville Marie now Montreal. The order was founded in 1736 when the first city of Canada was little more than a village nestled on an island at the edge of a boundless wilderness.

### Misericordia Hospital

Third in point of age among the hospitals of Winnipeg is the Misericordia Hospital. It is under the direction of The Institute of the Sisters of Misericordia which was founded in Montreal May 1st 1843 and canonically approved on January 14th 1848. The objects of the institute are to help in the moral rehabilitation of the unfortunate victims of a sinful world, and to receive poor and bring up the poor forsaken children. Its motto is "Misericordia dilectio".

In 1898 a house of the institute was established in Manitoba. Four sisters were brought out. Shortly after their arrival they bought land on Broadway where they intended to lay the foundation of a permanent establishment. Unforeseen circumstances compelled them to abandon that site, and a new site was secured at the foot of Sherbrooke Street close to Maryland Bridge over the Assiniboine. In 1900 the first part of the present structure was completed.

In 1907 the hospital was enlarged and in 1912 the Axle Hatchet was built at St. Boniface to give shelter to 100 babies. In 1916, a training school for nurses was established and the hospital which at first provided only obstetrical care became a general hospital. In 1927 a large hospital addition (costing on Warde Avenue) was built. It contains splendidly equipped operation rooms and laboratories as well as wards which bring the total capacity of the hospital to 225 beds.

### The Children's Hospital

In 1906 the idea of starting a hospital exclusively for children was brought before the Local Council of Women. A committee of four was chosen with power to add to their number. It was decided to open a hospital for children in a locality where the death rate was highest and until the venture had shown its value to solicit no funds but to raise them by their own personal efforts and the efforts of their friends. By running a tea-shop, by bazaars, literary fests, selling paper violetts on the streets and in

other ways these women finally secured sufficient funds to enable them to rent a large house. On February 6th, 1909 the hospital was opened with one baby patient; one superintendent, one maid of all work, and a full staff of honorary physicians and surgeons. In that year 282 children were admitted, and 546 new patients treated.

With the need of a hospital for the exclusive treatment of children established, a site of 3½ acres was procured on Aberdeen Avenue, overlooking the Red River. The present hospital was erected and was opened for patients in November, 1911. It was formally opened in July, 1912 by H R H the Duke of Connaught, and he and his consort became patrons of the hospital.

In 1916 a complete laundry unit was built and in 1918 a nurses residence. In 1925 the Shriners Hospital for Crippled Children established a unit for treatment of twenty patients by using one ward of the hospital. In 1928 by an addition, accommodation was provided for 32. At the present time the hospital can accommodate 133 patients. The out-patient department is splendidly equipped with quartz lamps and other apparatus for photo-therapy supplied by the Kresge Service Club.

### The Bureau of Child Hygiene

Adjoining the Children's Hospital is the Milk Dispensary owned by the City of Winnipeg and under the direction of the Bureau of Child Hygiene a division of the Health Department. In 1912, the year prior to the institution of the Bureau of Child Hygiene the death rate of infants under one year was 207 per 1,000 live births. In 1929 the infant death rate was 58.6. The bureau has three distinct services: the babies' clinic, a milk dispensary, and visiting nurses. In the milk dispensary are prepared by trained dietitians the modified feedings prescribed by the clinic, Children's Hospital and private physicians. The clinic is open daily, except Sundays, from 9 a.m. to 5 p.m. for consultations, advice and the weighing of babies. The nurses number fourteen, thirteen district nurses and one in attendance at the clinic.

### Grace Hospital

Grace Hospital was organized in 1904 by the Salvation Army, in order to care for unfortunate girls, and to provide accommodation for maternity patients. It was incorporated in the same year by special act of the Manitoba Legislature and for a time work was carried on in a rented house on Young Street. In 1906 the corner stone of the first section of the hospital at the corner of Preston and Arlington Streets was laid by Hon. R. P. Roblin, Premier of the province. In 1911 the hospital was considerably enlarged, and in 1927 a fully modern building of fireproof construction four storeys in height, and fronting on Arlington Street, was opened by Lady Willingdon, wife of the Governor-General of Canada. The three lower floors contain wards and nurseries,

while on the fourth floor are waiting rooms, labour rooms and operating rooms with the latest equipment. With this addition Grace Hospital now contains 140 beds for patients, and also accommodation for 60 girls, to rescue work among the unfortunate has always been part of the work of the Salvation Army.

### Victoria Hospital

Victoria Hospital, on River Avenue, in Fort Rouge was built in 1912 by the late Dr Thomas Beath. A few years before, Dr Beath had built and operated a hospital on Bannatyne Avenue near the Winnipeg General Hospital. This structure, a wooden building, was later used for a short time by the City of Winnipeg as a hospital for infectious diseases.

Victoria Hospital is seven stories in height, of reinforced concrete and brick construction, and has accommodation for 108 adult patients and 18 babies in the five floors used for hospital purposes. The Nurses' Home a solid brick building adjoins the hospital while across River Avenue is the Anges, a brick-veneered building. This provides quarters for the Social Service home and for hospital attendants. The hospital is general and accepts all cases which are not contagious or infectious. It is an "open" hospital, in which any registered physician in good standing may attend his cases.

Dr Beath was managing director until 1919, when he resigned on account of ill health. The present direction of the hospital is vested in a board of directors with Dr J H Thomson as managing director.

### St. Joseph's Hospital

St. Joseph's Hospital, Winnipeg, conducted by the Sisters of St. Joseph, is situated on the corner of Walter Street and Pritchard Avenue, North Winnipeg built in 1918 and operated as a private hospital until June, 1923, when it was taken over by the Sisters of St. Joseph, of Toronto, and immediately converted into a general hospital of fifty beds. In September of the same year a training school for nurses was opened.

In January, 1927 a new unit containing operating rooms, private and ward accommodation was opened, and a staff of attending doctors was formed for the departments of surgery, medicine, gynaecology, obstetrics, and eye, ear, nose and throat. A radiologist and pathologist have since been appointed. In the same year an out-patient department was opened.

The training school for nurses is under the direct supervision of the Sisters of St. Joseph, and is affiliated with the King George and King Edward Hospitals for Communicable Diseases.

The Order of the Sisters of St. Joseph was established at LePuy, France, October 15th 1650, by Mgr Henri de Maupas, Bishop of LePuy. In 1838 the first American foundation was made from

the Community at Lyons, France, and on October 7th, 1861, the first Canadian foundation was made at Toronto, Ontario.

The special purpose of the Congregation of the Sisters of St. Joseph is the instruction and Christian education of youth and the direction of charitable works such as orphanages, hospitals, and homes for the poor and aged.

### The Municipal Hospitals

The Municipal Hospitals, comprising King George Hospital for acute communicable diseases, King Edward Hospital for advanced pulmonary tuberculosis, the Smallpox Annex, Nurses' Home, Power House and Superintendent's Residence are grouped in the south end of the city in a 25-acre park triangular in shape, with the Red River forming the base of the triangle. King George Hospital has 230 beds, King Edward Hospital 100 beds, and the Smallpox Annex 30 beds.

Hospital service as a civic utility dates back to January, 1911, when the old Beach Hospital on Bannatyne Avenue near the General Hospital was purchased to provide for the cases of scarlet fever prevalent at that time. Five months later a temporary building for cases of advanced pulmonary tuberculosis was opened. This building was located on the site in the Riverview district mentioned in the previous paragraph. In July, 1912, King Edward Memorial Hospital was ready for occupancy, and in February, 1914 King George Hospital was opened.

H R H the Duke of Connaught opened the King Edward Memorial Hospital and laid the foundation stone of the King George Hospital on July 11th, 1912.

Sisters training schools in Manitoba, Saskatchewan and Ontario send their student nurses to the Municipal Hospitals of Winnipeg for training in infectious diseases nursing. Medical students from the University of Manitoba also receive instruction here.

### Deer Lodge Military Hospital

Fronting on Portage Avenue, and looking to the Assiniboine River, stands the hospital for ex-service men. Deer Lodge hostelry was for many years a favourite resort of Winnipeggers, but during the war it was taken over by a citizens committee as a convalescent hospital for returned men. In 1917 the Department of Militia took it over and used it as an Officers' Hospital. Later it came under the Department of Pensions and National Health. In 1927 and 1929 fireproof wings were added to the original wooden structure. The total bed accommodation is 204, and the hospital is completely equipped with operating rooms and X-ray apparatus.

## Mount Carmel Clinic

Mount Carmel Clinic is the most recent of Winnipeg's institutions for ministering to the sick. Located in a fine brick building on the west bank of the Red River it is well situated to serve the adjacent thickly-settled district. The clinic is maintained by voluntary contributions and provides aid to the sick poor without distinction of race, creed, or nationality. It contains the latest equipment for diagnosis and treatment.

## Winnipeg Health Department

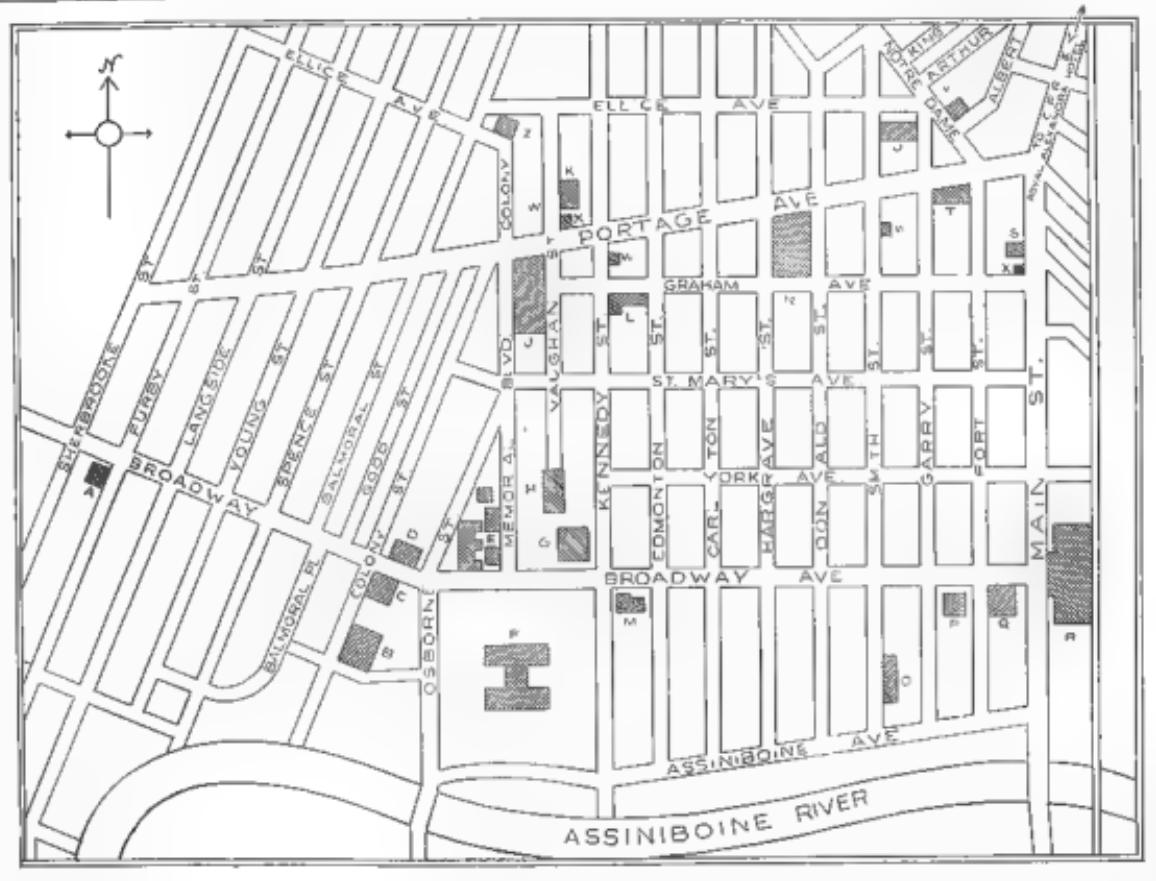

Winnipeg has reason to be proud of its health department which for a number of years has been under the direction of Dr. A. J. Douglas. As late as twenty-five years ago typhoid fever was prevalent and caused the death rates from 1904 onward energetic steps were taken to stamp out the disease with the result that for the last ten years very few cases have developed within the city. The steps taken included an extensive campaign of education as to the means whereby the disease is transmitted, the giving up of raw vegetables, the grading of outdoor privies, and the building of an aqueduct ninety-six and a half miles in length to bring a supply of purest water from Seven Lake an arm of the Lake of the Woods. The fight against other communicable diseases has been waged with equal vigour. Reference is made elsewhere to the Manitoba Hospital, which provides accommodation for sufferers from diphtheria, scarlet fever, tuberculosis, smallpox and other communicable diseases. The Bureau of Child Hygiene instituted earlier comes under the care of the Health Department. The death rate for the City of Winnipeg for the year 1927 was 8.20 per 1,000 population, and not the least among the factors which keep the death rate at a low figure is the Health Department.

## The Victorian Order of Nurses

The Winnipeg Branch of the Victorian Order of Nurses, an organization which extends across Canada, is particularly strong and efficient. It has existed in Winnipeg for thirty-one years and has grown with the community. The staff consists of a supervisor and twelve nurses. The order also has a lot of women who can act as helpers in the home when the mother is ill. The nursing service of the Victoria Order is divided into two classes—district and hourly. In district nursing the fees charged for visits are on a sliding scale according to the patient's ability to pay through the size of the fee does not regulate the service. One of the objects of the Order is to foster a spirit of independence and self-respect among its patients. In hourly nursing a fixed rate per hour is charged. This service is run on a self-supporting basis, and is in no way a charity. In times past the Winnipeg Branch has also done industrial nursing, i.e., assisting the nursing care of the employees of large departmental stores and other

organizations. While at the present the work is not being carried on, the Winnipeg Branch is prepared to resume it when conditions warrant.

In addition to the district work the Victorian Order carries on an educational campaign, through prenatal and postnatal visits, a "Well Baby" clinic in St. James, and Home Nursing and Mothercraft classes.

The Victorian Order Dental Clinic is a boon to those who cannot afford to pay the full charges of a dentist. Some fifty dentists of the city generously give their services free to this clinic.

The headquarters of the Winnipeg Branch are in the Medical Arts Building, itself a splendid monument of medical enterprise and co-operation.

### **The Margaret Scott Nursing Mission.**

This mission is called "The Margaret Scott Nursing Mission of Winnipeg" in acknowledgment of the unselish and self-sacrificing labours of Mrs. Scott in ministering for many years to the physical and spiritual needs of the sick poor of this city. It is supported by a society formed to perpetuate the work of Mrs. Scott who, happily, is still living, though in delicate health.

The mission was organized a little over twenty-five years ago. The Nurses' Home is at 98 George Street in the east end of the city, close to the Red River. The mission is independent and ministers to the sick poor without making any charge. In 1929 the visits made numbered 27,864, of which a large proportion were to female patients as maternity nursing forms a large part of the work. The nurses are usually twelve in number, including six student nurses from the Winnipeg General Hospit., and two student nurses from the Children's Hospital who come to the mission for two months' experience in district nursing.

---

# Care of Mental Patients in Manitoba

The Province of Manitoba provides for the investigation and care of cases of mental disease in three institutions via Mental Hospitals at Selkirk 25 miles from Winnipeg, Brandon 140 miles from Winnipeg and the Psychopathic Hospital operating in affiliation with the Winnipeg General Hospital.

The Mental Hospital at Selkirk has a present patient population of approximately 600 and was founded in 1908 as Manitoba's first institution for the care of mental patients. The hospital buildings are of brick situated on an extensive property of some 400 acres. Recent additions have included a Nurses' laundry building, a new fire reception hospital and a Nurses residence. A new block providing accommodation for 100 patients has just been completed this year. Overcrowding is a serious problem in all Manitoba institutions, a state of affairs that is apparently almost world wide. The superintendent is Dr. E. J. Barnes.

The hospital at Brandon is a much larger institution, averaging over 1100 patients and was founded in 1909. It was discontinued by fire in 1910, happily with no loss of life. The main building was replaced in 1911-12 but is in many ways a very unsatisfactory structure. New construction has included Nurses Residence, reception hospital & colony for demented patients. The hospital has an extensive active service covering about one-third the greater part of the Province's population outside of Winnipeg and its near-by communities. Dr. C. A. Maragar is the superintendent.

The Psychopathic Hospital, the first of its kind in Canada, was established in 1918 and is situated in close proximity to the Winnipeg Victoria Hospital and Medical School, with both of which it has very close relations. It has a total bed capacity of 32 beds and present statistics have indicated a very serious degree of over crowding. It is intended for the reception of highly treatable cases and up to now caring for over 1,000 cases with an average of 62% recovered or improved to a degree permitting return to the community. There is an active Out Patient Department. Dr. A. T. Mathews is the director and is also Provincial psychiatrist.

The outstanding attainments of the Division of Mental Diseases are : 1. Provision of smoothly working and nonterrifying methods of admission for patients with a minimum of legal procedure. 2. movement of patients into hospitals with provision for proper recognition of patients proper classification, provisions for individualized and occupational therapy, provision of adequate laboratory service, nurses, nursing and medical service, social service and facilities for the training of medical students and nurses in training. 3. Improvement of the medical-legal aspects of psychiatry by providing expert service for all courts in the Province. It is noteworthy that in twelve years there has not been opposing medical testimony in any criminal

age. Results of examinations made by the Provincial physicians are communicated to both Board and Defense and are subject to cross-examination by either or both.

## Medical Inspection in Winnipeg Public Schools

A system of regular medical examination of school children in Winnipeg was inaugurated in 1908. At that time the school population was 14,000 and the staff consisted of two part-time physicians, a man and a woman physician to examine boys and girls respectively and three nurses. At the time of 1928 the school population numbered 42,000 and the staff consisted of one full-time medical officer, three part-time physicians, two men and a woman physician to conduct lectures, nurses and two clerks.

Each pupil is physically examined by a staff physician once every ten and a half years. Pre-school tests are given by the chief medical officer. Backward children are placed in special classes of which there are eighteen. There are two night nursing classes for children whose home is located to be one-third of a mile with the highest pass or connection. The medical staff also examine all teachers and caretakers appointed to the schools. The chief medical officer, a woman physician, makes the rounds of the teachers already on the staff through the medical surveillance required of every teacher absent from duty on account of illness for more than one day.

The Bureau supervises the health of all pupils except for refugee children and have been responsible for the discovery of 10 per cent of all such cases among school children unattached to a family. They take up all cases of physical defects found by the school physicians, cooperate with public health inspector and dentist, as well as with various social welfare organizations.

Now over 100,000 children are provided with clothing and food and sent to Fresh Air camps in summer. They give lectures & entertainments to the higher grade girls. They assist the City Health Officer in giving preventive vaccinations and liquidating communicable diseases in the schools and follow up all cases of growing deficiency in school progress. When children require glasses and are unable to pay for them glasses are supplied free by the School Board.

There is also a Dental Department consisting of one full-time dentist and five part-time dentists. Children whose parents are unable to pay for dental work are referred by the school nurses to the dental department.

Nineteen-eighty reporters on the employ of the School Board have received First Aid Certification from the St. John Ambulance Brigade.

# Manitoba's Fight Against Tuberculosis

The impulse of the modern campaign against tuberculosis reached Manitoba early in the new century. As a result, Manitoba Sanatorium was opened at Niverville in 1910, and the King Edward Hospital of the City of Winnipeg a little later. St. Boniface Hospital also treats tuberculous patients. Beds in the three institutions are about 285, 100 and 40 respectively.

The Sanatorium treats tuberculosis of all forms. General hospitals receive both pulmonary and non-pulmonary cases temporarily for surgical phases of treatment—phrenectomy, thoracoplasty, resections of joints, etc.

## Maintenances

Patients who cannot pay are charged on their municipalities, and the Provincial Government grants fifty cents per patient-day. Outside the four cities the obligations of municipalities are met by a lump sum payment raised by levy. One advantage of this plan is that once the levy has been paid a municipality is anxious to send its patients for treatment.

## Education

The general education of the people by lectures, addresses and publications has been a useful part of the work of the Sanatorium.

The teaching of medical students has been a definite part of the work of the Sanatorium since 1913 and for ten years or more the Medical College has sent all students for a residence of at least two weeks. This teaching is added to by clinics and lectures in Winnipeg.

## Clinics

The Sanatorium at Niverville, the King Edward, and the larger hospitals of the Winnipeg-St. Boniface centre, keep up clinics for tuberculous cases.

For five years the sanatorium staff, with Public Health nurses have held "Travelling" clinics for the examination of contacts and suspects. X-Ray plates are made of almost all examined. In seventeen such clinics last year 2,104 were examined, among whom 104 new cases were found. By the end of June this year nearly 2,500 had been examined by the Sanatorium staff at home and abroad. This vigorous work is supported by the sale of Christmas Seals.

Though the Manitoba death rate from tuberculosis has dropped and is comparatively low—in the fifties per hundred thousand population—the numbers seeking treatment are increasing as evidence that the field is being better covered. There are about 400 deaths a year.

A Government commission in 1928 recommended more beds in sanatorium for children and that travelling clinics be continued.

St. Boniface Hospital is at present building a large and well-appointed sanatorium adjacent to the chief centre of population-

The Board of Trustees of the Manitoba Sanatorium has become the nucleus of an official SANATORIUM BOARD OF MANITOBA to co-ordinate anti-tuberculosis effort.

One chief agency for this co-ordination is work, teaching and records, is to be a central tuberculous clinic for the province, with a few beds for emergencies and observation.

Plans for a children's sanatorium are ready, but it will likely not be built this year.

There is a tuberculous division in the Provincial Government Public Health Nursing Service, and Winnipeg City has three nurses dealing especially with tuberculosis.

Among the chief endemic foci are the Indian settlements, in which infection is well-nigh universal and resistance poor. To a less extent, the same is true of a part of the very considerable half-breed population.

Colonies of European peoples of low resistance also are foci of infection.

Altogether, with facilities now in use and those under way, Manitoba should be ready to get off to a new start in dealing with tuberculosis as an epidemic and endemic disease, that is by methods of control and prevention as well as by segregation and treatment.

## Cancer Relief Institute of Manitoba

Within the last few months concerted action has been taken to provide for the adequate treatment of sufferers from cancer in Manitoba. Surgeons, hospitals and deep X-ray equipment have been available for some time but there was not a sufficient supply of radium. In March 1929, a committee, named by the Dean of the Medical School began work on the problem. The Government of Manitoba agreed to guarantee bonds up to \$100,000.00 for the purchase of radium and the Great West Life Assurance Company, with headquarters at Winnipeg offered to take the bonds at par with a low rate of interest. In May, 1930, the Manitoba Legislature passed an enabling act under which control was vested in the Cancer Relief Institute. The members of this Institute are prominent medical and business men of the province.

Under the direction of the Physics Department of the University of Manitoba, a radium enucleation plant will be established in the Medical School. A supply of radium needles and plaques will also be available. It is proposed to employ a registrar to be in charge of all records and to establish a cancer museum. The Cancer Relief Institute hopes to see tumour clinics also established in the teaching and larger hospitals in the province.

The officers of the Institute are:

Dr Charles A. MacKenzie, Chairman,  
Dr Hugh Mackay, Vice-Chairman,  
Dr Bruce Chown, Secretary

# Conferment of Honorary Degrees

---

In the Winter Club Auditorium on Thursday, August 28th, at 3.30 p.m., there will be a special convocation of the University of Manitoba for the conferment of the degree, Doctor of Laws, on certain of the distinguished members.

The Chancellor, The Most Reverend Samuel P. Matheson, D.D., D.C.L., LL.D., Archbishop of Rupert's Land and Primate of All Canada, will preside, and will confer the degree on the following:

ALFRED COX, O.B.E., HON. M.A., M.B.

A. H. BURGESS, M.Sc., F.R.C.S., D.L.

W. HARVEY SMITH M.A., M.D., C.M.

The Rt. Hon. LORNE MONTGOMERY OF LEADS, K.C.M.G., C.B., M.D., M.S., F.R.C.S., LL.D.

The Rt. Hon. Lord DAWSON OF PENN, G.C.V.O., K.C.B., M.D., F.R.C.P.

N. BISHOP HARMAN, M.A., M.B., F.R.C.S.

Professor W. E. DIXON, M.A., M.D., B.Sc., D.P.H.

Sir ST. CLAIR THOMSON, Kt., M.D., F.R.C.P., F.R.C.S.

Sir JAMES W. BAKER, K.B.E., C.B., C.M.G., M.D., B.Ch., F.R.C.S.

Sir E. FARQUHAR BLIZARD, K.C.V.O., M.A., M.D., B.Ch., F.R.C.P.

These gentlemen will be presented by S. Willis Prowse, B.A., M.D., C.M. (Edin.), F.R.C.S.E., F.A.C.S., Dean of the Faculty of Medicine, University of Manitoba.

---

S. WILLIS PROWSE, B.A., M.D., C.M. (Edin.) F.R.C.S.E., F.A.C.S.

will be presented by

The Hon. E. W. MONTGOMERY, M.A., M.D., C.M., LL.D., F.A.C.P., Minister of Health and Public Welfare, Manitoba.

# Meetings

By permission of the Council the following Meetings will be held at Winnipeg during the visit of the Association.

## IRISH MEDICAL SCHOOL AND GRADUATES ASSOCIATION LUNCHEON

The Irish Medical Schools and Graduates Association will hold its Annual Luncheon on Wednesday August 27th at 1 p.m., at the Marlborough Hotel. The President of the British Medical Association Professor W. Harvey Smith M.A. M.D. C.M. will be the guest of the Association. The speakers will include Sir William J. Le Gaurie Wheeler F.R.C.S. Professor T. G. Macneal F.R.C.P. Regius Professor of Physic in Trinity College and Mr Robert Woods M.P. F.R.C.S. All these are distinguished members of the profession in Dublin. The luncheon is open to any member of the medical profession and guests, ladies or gentlemen may be invited. Tickets will be \$1.00 each, and can be obtained at the B.M.A. registration office. Seating accommodation is limited to one hundred and fifty. As there are many visitors of Irish descent who will want to hear their native language in its purest form, it is advisable to make reservations early.

## NATIONAL TEMPERANCE LEAGUE

On Thursday August 28th the National Temperance League will hold its Twentieth Annual Medical Breakfast in the Saloon Picardi's corner Broadway and Coburg at 8:30 a.m. under the presidency of Professor W. Harvey Smith M.A. M.D. C.M. President British Medical Association who will be supported by leading members of the Association. Dr. Courtney C. Weeks, Director of the League will deliver the special address. Members are cordially invited to apply for cards of invitation which may be obtained at the Registration Office Webster Club, or from Dr H. P. Halloway 66, Broadway.

## MEDICAL MISSIONARY BREAKFAST

In co-operation with the Medical Prayer Union, a Breakfast will be held on Friday August 29th in the Saloon Picardi's corner Broadway and Coburg at 8:30 a.m. The Chairman is Professor W. Harvey Smith M.A. M.D. C.M. President, British Medical Association. An address by an eminent authority on Medical Missions will be given. All interested are cordially invited and are requested to apply for cards of invitation, which may be obtained at the Registration Office Webster Club, or from Dr A. W. S. Hay, 205 Medical Arts Building.

# **Scientific Sections**

---

## **TIME TABLE FOR SECTIONS**

The Sections will meet from 10 a.m. to 1 p.m., unless otherwise noted. The respective rooms are given on page 137, and the directions in the various buildings will be indicated by placards.

## **RULES FOR GENERAL DISCUSSIONS**

Members and (on certain specified conditions) Press Representatives only are admitted to Sections, and Membership Cards must be shown at the door on request.

The following are extracts from the Rules for the Conduct of Discussions in Sections adopted by the Council —

1. One person, hereinafter called the Opener, shall be invited to open each General Discussion.
2. The paper of the Opener shall not exceed in length 5,000 words.
3. Prints of the Opening Paper for each discussion (if received in time) shall be supplied to the Honorary Secretaries of the Section, and the Local Honorary Secretaries shall send a print in advance to those invited to take part in the discussion, and to others who apply for a copy.
4. At the meeting of the Section the Opener of a discussion shall be allowed 20 minutes. He shall not read the full text of his Opening Paper, but state and emphasise the main points which he considers suitable for discussion. This is a point which should be duly impressed on speakers.
5. Subsequent speakers in a discussion shall be limited each to 10 minutes, subject to the discretion of the Chairman, with the sanction of the meeting.
6. No person shall be permitted to speak more than once in any discussion, except to reply to a question put by the Chairman of a Section, but the Opener shall be allowed 10 minutes in which to make his reply.

# Detailed Programme of Sections

## MEDICINE

### *President.*

The Rt. Hon. Lord Dawson of Penn, G.C.V.O., K.C.B., M.D., F.R.C.P., London.

### *Vice-Presidents*

Professor T. GILLMAN MOORHEAD, M.D., F.R.C.P.I., Dublin  
EDMUND I. SPENCER, M.D., F.R.C.P., Ruthin Castle, North Wales  
CHARLES HUNTER, M.D., F.R.C.P., Winnipeg  
Professor KENNETH ALEXANDER MacKENZIE, M.D., Halifax, N.S.

### *Honorary Secretaries.*

JOHN PARKINSON, M.D., F.R.C.P., 1 Devonshire Place, London, W.1

J. M. McEACHERN, M.B., Medical Arts Building, Winnipeg

*Official Reporter* Dr J. M. McEACHERN.

### WEDNESDAY, AUGUST 27th

10 a.m. Discussion Filterable Viruses and Practice Medicine. To be opened by Dr S. P. BEAUMOIR (London), with a Clinical Introduction by Lord DAWSON, followed by Dr NEIL E. MCKENNON (Toronto). Paper Professor J. C. MIZAKINE (Montreal), and Dr W. de M. SCRIVAN (Montreal) Treatment of Hypertension.

### THURSDAY, AUGUST 28th

10 a.m. Discussion The Functional Disorders of the Colon. To be opened by Dr EDMUND SPENCER (Ruthin Castle), followed by Dr E. K. CLEAVER (Toronto), and Dr THOS. McCRAE (Philadelphia). Paper Dr T. GWYNNE MAITLAND (Liverpool), Group Captain MARTIN FLACK, R.A.F.M.S., and Dr J. R. MARRACK (Sawbridgeworth, Essex) Rheumatism.

### FRIDAY, AUGUST 29th

10 a.m. (Joint meeting with Section of Mental Diseases and Neurology) Discussion Acute Poliomyelitis. To be opened by Sir FRANCIS BURGESS (Oxford), followed by Professor H. B. CUSHING (Montreal), and Dr JOHN M. McEACHERN (Winnipeg).

**MEMORANDA**

---

## SURGERY

### President

The Rt. Hon. Lord MORTIMAN OF LEEDS, K.C.M.G., C.B.,  
M.D., M.B., P.R.C.S., LL.D., Leeds.

### Vice-Presidents

Sir WILLIAM J. DE COURCY WHEELER, M.D., F.R.C.S.I., Dublin  
HERBERT WM. CARSON F.R.C.S., London  
PROFESSOR BRANDER J. BRANDER, M.D., Winnipeg,  
JOHN SINT LAIR McEACHERN M.D., C.M., Calgary

### Honorary Secretaries

HUGH CAIRNS, F.R.C.S., The London Hospital, London, E. 1  
C. W. BURNS, M.D., C.M. 212 Medical Arts Building, Winnipeg.

Official Reporter Mr HUGH CAIRNS.

### WEDNESDAY, AUGUST 2nd.

10 a.m. (Joint Meeting with Section of Tuberculosis). Discussion Recent Advances in Thoracic Surgery To be opened by PROFESSOR F. W. ARTHURALD (Montreal). The Scope of Thoracic Surgery, followed by DR J. ROUSICK BYRNE Montreal, and DR R. A. YOUNG (London). The Medical Aspects of Thoracic Surgery, MR A. THOMAS EDWARDS (London). Malignant Disease of the Lung, DR W. L. MAYN (Winnipeg). Pneumonectomy, DR J. D. MCNAUL (Winnipeg). Closed Draining in the Treatment of Empyema, DR H. R. SHERRATT (Toronto). Pulmonary Lobectomy in Bronchiectasis.

### THURSDAY, AUGUST 3rd.

10 a.m. Discussion A Symposium on the Uses of Radium in Surgery. Sir CHARLES CONNELL-WATSON (London), Radium in the Treatment of Cancer of the Rectum (with cinematographic demonstration) MR STEPHEN CANN (London). Radium in the Treatment of Malignant Diseases of the Mouth and Tongue, DR DOUGLAS QUILLIN (New York). Radium and Surgery in connection with Cancer of the Tongue, DR G. E. BIRKETT (Manchester), communicated by PROFESSOR A. H. BUNNELL. The Results of Radium Treatment of Cancer of the Mouth and Tongue MR FRANK KING (London). Radium in Treatment of Tumours of the Bladder and MR HUGH CAIRNS (London). Radium in the Central Nervous System.

### FRIDAY, AUGUST 4th.

10 a.m. Discussion The Surgery of the Sympathetic Nervous System To be opened by DR W. J. MAYO Rochester, Minn.), followed by DR N. D. ROLFE (Sydney). The Clinical Results following the Operation of Sympathetic Ramiectomy,

Dr JOHN FULTON (Oxford), The Physiological Basis of the Surgery of the Sympathetic; Dr J. R. LITAMOSOFF (Rochester, Minn.), Indications for Operations on the Nerves of the Distal Colon, Rectum, and Bladder; Dr R. B. WAKE (Sydney) Ramisection and Hirschsprung's Disease; Dr. WILDER G. PEPPERFIELD (Montreal), The Evidence for a Vasomotor Mechanism in Epilepsy, and Dr ALFRED W. ADSON (Rochester, Minn.). The Indications for and the Therapeutic Value of Sympathetic Ganglionectomy and Trunk Resection in the Treatment of Peripheral Vascular Disease. Short Paper Mr. A. DICKSON WHROST (London), The Treatment of Varicose Ulcer (with cinematographic demonstration)

#### DISCUSSIONS

---

## **OBSTETRICS AND GYNAECOLOGY**

### *President*

CORINE BERKELEY, M.D., M.C.Cantab., F.R.C.P., F.R.C.S.,  
London.

### *Vice-President:*

THOMAS GEORGE STEVENS, M.D., F.R.C.S., London.  
SIR EWEN MACLEAN, M.D., F.R.C.P., Cardiff.  
DAME LOUISE McILROY, D.B.E., M.D., London.  
PROFESSOR DANIEL SAYRE MACKAY, M.D., F.R.C.S.Ed., Winnipeg.  
WALTER WILLIAM CHIPMAN, M.D., F.R.C.S.Ed., Montreal.

### *Honorary Secretaries.*

J. E. STACK, M.D., F.R.C.S., 2 Durham Road, Sheffield.  
F. G. McGOWAN, M.D., 320 Medical Arts Building, Winnipeg.

*Official Reporter Dr. J. E. STACK.*

### **WEDNESDAY, AUGUST 26th**

10 a.m. Discussions (1) Uses of Radium in Gynaecology To be opened by Mr SIDNEY FORBES (London), followed by Professor W. W. CHIPMAN (Montreal). (2) Treatment of Lymphatic Glands in Carcinoma of the Cervix To be opened by Dr MALCOLM DONALDSON (London).

### **THURSDAY, AUGUST 27th**

10 a.m. Discussions (1) The Albulaputina of Pregnancy and its late Results. To be opened by Mr. J. BRIGHT BANNISTER (London). (2) The Effects of Hypertonic Saline in Tumescence of Later Pregnancy To be opened by Professor V. J. HAKING (Toronto), and Dr. H. B. VAN WICK (Toronto). (3) Cyst Formation in the Clitoris, by Sir EWEN MACLEAN (Cardiff).

### **FRIDAY, AUGUST 28th**

10 a.m. Discussions (1) The Placental Hormone Extractions. To be opened by Professor J. B. COULIE (Montreal), followed by Dr A. D. CAMPEAU (Montreal). (2) Demonstration on the Operative Treatment of Prolapse, by Dr T. G. STRIVINS (London). (3) The Use of Sedatives and Anaesthetics in Labour. To be opened by Dame Louise McILROY (London) (the Section of Anaesthetists will join in the subsequent discussion).

**MEMORANDA**

---

## **PATHOLOGICAL MUSEUM**

The Museum of Scientific Exhibits will occupy the room on west side of Auditorium in the Winnipeg Winter Club.

The Museum Committee, of which Professor J. C. R. Grant, M.C. (Bar.), M.B., Ch.B., F.R.C.S. is Chairman with D. N. Chelton, M.D., C.M., M.R.C.P., as Secretary, has arranged a series of exhibits, some of special, others of general medical and surgical interest, together with a large display of X-ray Films.

A catalogue containing brief descriptions of the individual exhibits will be issued

— — —

## **THE WELLCOME HISTORICAL MUSEUM EXHIBIT**

With great kindness Mr. H. S. Wellcome, of London, England, has consented to send an exhibit selected from the well-known and beautiful Wellcome Historical Museum in London. This exhibit will be placed in Committee Room 200, on the first floor of the Legislative Building (west side), just south of the Reception Room, where the Section of Medical Sociology and History meets. This display of ancient Egyptian, Greek and Roman art with special reference to medicine is not only beautiful but of deep antiquarian interest and should attract many visitors.

## **PSYCHIC RESEARCH EXHIBIT**

This will be located in close proximity to the Pathological Museum and will contain charts, diagrams and explanatory notes established on twelve years of Psychical Research, by Dr. T. Glen Hamilton and an associate group of investigators. It will also contain numerous photographs, with ordinary and stereoscopic, of telepathic (fort chasseur) and allied phenomena of particular interest to the medical scientist.

— — —

## **COMMERCIAL EXHIBITION**

The attention of all registering at the Meeting is directed to the Commercial Exhibition located in the north wing of the Winter Club.

The Exhibition will remain open from 10 a.m. to 5 p.m. on Tuesday, August 26th, and from 9 a.m. to 5 p.m. on Wednesday, Thursday and Friday, August 27th, 28th and 29th.

The latest appliances and therapeutic preparations are on view, many of which are placed before the Medical Profession for the first time. Members are urged to visit the Exhibition.

Appended is a list of the exhibitors who have contributed to the success of the Exhibition.

Surgeon-General H. S. Cumming, Washington, D.C.

# Hobbies Exhibit

## FOREWORD

Much interest and pleasure have been derived in the British Isles and in Canada in recent years from exhibits showing the recreational hobbies of medical men, those occupations which afford relief from pressures professional and other tensions of life. On this occasion East and West have combined to make this Exhibit both varied and interesting. It might not be unreasonable to suggest that this Exhibit may be the means of setting up contests between not only the Exhibitors, but also some of our visitors from other distant parts of the British Empire, to whom the local "Hobby-fair" offer a most cordial welcome.

Motto: "Ouleo et decorum est despero in his iaceo."

## PAINTINGS

### In Oil.

"St. Fiddle, Quebec" .....	Dr. F. G. Denting, Toronto, Ont.
"Winter on a Quebec Farm" .....

Exhibited by Dr. Ellen Douglas, Winnipeg, Man.

# Aims, Objects and Constitution of the British Medical Association

The British Medical Association founded in 1832, was established to promote the medical and allied sciences and to maintain the honour and interests of the medical profession. It holds periodic meetings for the discussion of all subjects of interest to members. It has a central office, publishes the *British Medical Journal*, the *Archives of Disease in Childhood*, and the *Journal of Neurology and Psychopathology*, and it has constituted societies and subcommittees and makes grants for the promotion of the medical and allied sciences by research.

Divisions are founded on territorial Divisions, formed of the members residing in the area. The Division number 274 has certain purposes. Divisions are represented on Committees. The members of a Division elect a member or members of the Representative Body.

The determination of the policy of the Association is conducted in the Representative Body which meets annually at least often, or at more determined times.

The Central Office is one of the four staff. It is divided on a composite basis into the Finance and Resources, General, Local, and Professional Divisions, and includes the representation of the Non-British Medical Profession. The General section also includes the Representative Body. The equivalent Representatives for each are seated in Council of the members during their term of office. The Non-British Medical Professions also include Latin America, Africa, South and South East Asia, and Oceania. These are the countries for the European West and Ireland and Wales. There are Federal Committees for Australia and South Africa.

A Member of the British Medical Association has the right among other things—

- a. To attend the annual and other general meetings of the Association and the meetings of the Division and Branch to which he or she belongs.
- b. To take part by postal vote or, at the choice of the Division, by voting paper, in the election of the Representative of his Division to the Representative Body which determines the policy of the Association.
- c. To receive the *British Medical Journal* which is published weekly, and is the most authoritative medical periodical published in the British Empire giving a complete summary of progress in clinical, scientific and medical-practical affairs.
- d. To receive from the Central Staff advice and assistance in all matters exclusive of individual legal advice and assistance, affecting himself as a medical practitioner.
- e. To the free use of the reading and consultation libraries.

All duly qualified British Medical practitioners are eligible for election as Members of the British Medical Association. Full particulars can be obtained on application to the Medical Secretary, British Medical Association House, Finsbury Square, London, W.C.1; the Scottish Medical Secretary, 7 Drumchapel Gardens, Edinburgh; or to the Irish Medical Secretary, 16, South Frederick Street, Dublin.

In 1902 there were five medical journals in Canada. Today the Journal of the Canadian Medical Association is appreciated not only in Canada but also abroad. In addition to this, health services of the air, press and radio health talks are provided.

A physician seldom practices in Canada now without first seeking advice from the Canadian Medical Association or one of its provincial branches. Through the recommendation of the Federal Department of Health and our Association, the medical drugs and medicines he uses are standardised and guaranteed to him. In his calls he meets the Brothers of the American Medical Board & some other institutions & governments who, like himself, appear to be in a position to co-operate in the organization for advice and support. And through his membership in the Canadian Medical Protection Association he has a fine great peace of mind who but he would hesitate enough to require to support or not. The Canadian Medical Protection Association was formed at the Winnipeg meeting of the Canadian Medical Association in 1901 and might almost be considered as a section of the national organization.

## THE LISTERIAN ORATION

The Listerian Oration was established by the Lister Memorial Club of the Canadian Medical Association to commemorate the debt that surgery owes to the genius of the late Lord Lister.

The Oration is delivered triennially the first Oration being delivered at Ottawa in 1924 by Dr John Stewart Kinnaird Professor of Surgery Dalhousie University Halifax Nova Scotia who was a student clerk and personal friend of Lister.

The second Oration was delivered at Toronto in 1927 by Sir Charles Scott Sherrington, Waynflete Professor of Physiology, Oxford.

The third Oration will be delivered by The Rt Hon Lord Montagu of Leeds, K.C.M.G., C.B., M.D., M.S., F.R.C.S., F.L.D. Consulting Surgeon, Leeds General Infirmary, on August 29th 1930, and the Chairman on that occasion will be John Stewart of Halifax Nova Scotia.

## Dr. CHARLOTTE W. ROSS

A memorial service arranged by the Federation of Medical Women of Canada will be held at Brookdale Cemetery, at 7:30 a.m. Thursday August 29th for Dr Charlotte W. Ross, the pioneer woman physician of Manitoba. In 1877, though already married she graduated in medicine from the Women's Medical College Philadelphia and was the first woman to practice medicine in Montreal. In 1878, her father Joseph Whiteman, and her husband David Ross went west to build section 15 of the Canadian Pacific Railways, and three years later Dr Ross with her children joined her husband at Whitewater Manitoba.

Though Dr Ross had the care of her children and her home, she received many calls for professional assistance and in order to visit her patients along the site of railway she was obliged to make use of many modes of transport - locomotive, horse-drawn, freight carriages sled and buckboard. For many years she conducted an arduous country practice. She died in 1916. Her grand-daughter, Dr Edith Ross, has presented to the University of Manitoba the Doctor Charlotte W. Ross Gold Medal awarded annually in Obstetrics.

# The Canadian Medical Protective Association

## THE AIM AND OBJECTS

Twenty-one years ago the Canadian Medical Protective Association was founded in the City of Winnipeg during a meeting of the Canadian Medical Association with which Association it is now affiliated.

For many years there had been a strong feeling among the profession that some protection should be available to members of our profession who were targets of alleged malpractice similar to those conditions which were existing on a like scale in the United States. The objects of the Association are:

1. To support, encourage and protect the honour, character and interests of its members.

2. To encourage the morale of the medical profession.

3. To give advice and assistance to any doctor and assist in the defense of members of the Association in cases where proceedings of any kind are unjustly brought or threatened against them.

From very small beginnings the Association has steadily grown until at the present time it has a general membership and a large reserve fund which is used for the purpose of the defense of the members. During recent years it has been felt that in addition to defending actions the Association should guarantee our members legal expenses if necessary and beginning January 1928 it has guaranteed to pay all expenses against any of its members up to and including five thousand dollars up to and after year. In the entire of the past thirty-five years not on a single case has judgment been given against any member defended by the Association.

The Association has over time engaged lawyers to its credit and I feel confident persons in the future as in the past it will not be long until there will be a very substantial fund for the payment of legal expenses if necessary against any member.

The association is steadily growing but the law office feel that the profession in general should take a more greater interest in this question of medical defense as it is essential for their interests are looked after by a strong organization of persons who will get the best legal advice and as expert advice in a later defense of any action. If the whole profession were organized it would not be many years before malpractice actions would be a thing of the past.

It is gratifying to note that one of the men closely responsible for the formation of the Association Dr. H. M. Powell is still President and able to give the benefit of his extensive experience in these matters.

### OFFICIAL PHOTOGRAPHER.

Edwin L. Carter 217 Montgomery Building Portage Avenue and Notre Dame Street has been appointed official Photographer for the Meeting.

## **SECTION OF RADIOLOGY LUNCHEON**

Under the chairmanship of W. H. Dickson, M.D., C.M., Toronto, the Canadian Medical Association (Section of Radiology) will hold their Annual Meeting in the Fort Garry Hotel, 12:30 p.m., Friday, August 29th.

Tickets for Lunch, \$1.50, on sale at Registration Office

---

## **BORDER MEDICAL SOCIETY**

The August Meeting of the Border Medical Society will take the form of a luncheon, to be held in the Fort Garry Hotel at 12:30, Friday, August 29th. The tickets will be \$1.50 and may be purchased at the Registration Office.

This Society embraces in its membership citizens of two nations, the United States and Canada. The Society has forty members all medical men practicing within a radius of 70 miles of the Manitoba-Saskatchewan boundary line, where this line meets the international boundary.

The aims and objects of the Association are those usually found in any well organized medical society.

Meetings will be held during the summer months alternately in Canada and the United States.

The guest of honour and speaker for this luncheon meeting is Alfred Cox, O.B.E., Hon. M.A., M.B., B.S., Medical Secretary of the British Medical Association, who needs no introduction to any gathering of medical men.

---

## **PSYCHIC RESEARCH LUNCH**

On Wednesday, August 27th, at 1:00 p.m. in the Fort Garry Hotel there will be a luncheon followed by a lecture on "Psychic Research" illustrated by T. Glen Hamilton, M.D. Tickets \$1.50, limited to 400 can be secured at Registration Office any time before 11:00 a.m. on day of luncheon.

---

## **MILITARY RECEPTION AND REUNION**

On Wednesday, August 27th, at 6:00 p.m. there will be a Military Reception and Reunion of those who served Overseas. Details will be posted on bulletin board at Registration Office.

---

## **AVIATION LUNCHEON**

A luncheon to be followed by a discussion on Aviation Medicine will be arranged on Wednesday, August 27th, if there is sufficient demand. Those wishing to attend will please notify the Registration Office not later than 6:00 p.m. on Tuesday, August 26th.

## THE FLAG OF WINNIPEG

The Great Hall of the British Medical Association House, Tavistock Square, London is adorned with the banners of cities where the Association has met. Among them are the flags of Montreal 1897 and of Toronto 1906. The flag of Winnipeg has been prepared and will be presented to the President of the British Medical Association on the first day of the Winnipeg meeting, and it will be borne in the procession from the Winter Club to the Legislative Building, where the Annual Religious Service will be held.

It is of crimson silk, 54 inches by 41 inches, with a red white and blue fringe 2½ inches deep. Both sides of the flag are similar. In the centre are the arms of the city of Winnipeg in their proper colours. In the upper left hand corner on a white scroll appears the year of the meeting 1906 and below the arms also on a white scroll is the name Winnipeg. It was made by a local firm.

When hung in the Great Hall it will take its place with those of the following cities: Aberdeen Belfast Birmingham Bournemouth Bradford Brighton Bristol Cardiff Cork Dublin Edinburgh Glasgow Ipswich Leeds Leicester Liverpool London Manchester Montreal Newcastle-on-Tyne Nottingham Portsmouth Sheffield Swansea Toronto Worcester York.

### ACKNOWLEDGEMENT OF THANKS

The Local Committee express their appreciation of the help and many services extended to them by:

The Dominion Government  
The Province and Territories  
The Mayor and Aldermen of the City of Winnipeg  
The Canadian National Railways

# *A City of Cheap Power*

Seven Sisters power plant as it will look when completed.

Winnipeg a major inducement to industry is an abundant supply of cheap electricity.

The beginnings of the industrial era in Manitoba took place with the erection by the Winnipeg Electric Company of a hydro power plant at Pinawa in 1906. The total capacity of this plant is 35,000 horsepower.

Since then another plant at Gull Lake has been erected and is being operated to its full capacity of 163,000 horsepower.

At the present time we have under construction a \$23,000,000 hydro power plant at Seven Sisters which will when completed develop 275,000 horsepower. It will be the largest plant in Manitoba.

Approximately 1,000 men are at work on it now.

Manitoba is adapted to use it thus ample provision for

## The X-Ray Apparatus of Tomorrow

*A few minutes spent at the exhibit of General Electric X-Ray Corporation will convince you that the X-Ray art is witnessing a new era in apparatus design.*

If you have not seen a demonstration of the Victor Shock Proof X-Ray Unit, a splendid opportunity awaits you during this meeting.

It is this apparatus which has brought the x-ray world to a full appreciation of the advantages of 100% electrical safety in x-ray equipment.

The radically new principles of design have made possible both radiographic and fluoroscopic diagnosis with one and the same Coolidge tube, which may now be used either over or under the table and in positions heretofore avoided because of the dangers of electrical shock.

Inherent with this apparatus is a control system so simplified and refined that users everywhere are enthusiastic over the remarkably high quality of radiographs which they are making in routine work.

Neither altitude nor humidity affects its operation, as both the transformer and tube are immersed in oil within the sealed tube head.

Exhibit Spaces #46 to #51 inclusive

# NATURAL CARLSBAD SPRUDEL-SALT

Prepared only by the Municipality of Carlsbad from  
the World-famous "Sprudel" Spring at Carlsbad  
(In Crystals or Powder)

## In the Only Genuine CARLSBAD SALT

Largely prescribed in cases of Chronic Gastric Catarrh, Hyperæmia of the Liver, G.I. Stones, Chronic Constipation, Diabetes, Renal Calculi, Gout and Diseases of the Spine, arising from residence in the Tropics or the various districts.

Medical Practitioners should kindly note, when prescribing, to specify "Carlsbad SPRUDEL-SALT" on account of the many artificial preparations upon the market.

The stronger caustic rock salts of genuine Salt bear the signature of the Salt Agency.

Type of Tobacco—many examples of which have been sent to H B C Historical Exhibit.

You will be interested in seeing HUDDSON'S BAY COMPANY'S HISTORICAL EXHIBIT. This is located in our Winnipeg Store and is open to the public during business hours 9 a.m. to 6 p.m. By means of relics, models, pictures, documents and curios, the story is graphically told of the early and present day life of the Company's Fur Traders, the thrilling events in the history of Canada's pioneer western settlers, and the discoveries made by H B C servants.

VISIT OUR BOOTHS Nos. 19, 20 and 21 at the Winter Club Building

Specialties: Hudson's Bay "Paint" Blankets, Fur Garments, Imperial Mixture Tobacco.

# Quick Relief

Not only does the balanced antacid, BiSoDol, afford quick relief to the well known symptoms of gastric hyperacidity, but it introduces a control factor against the setting up of a dangerous alkaloosis — a chief objection to single alkali medication.

In BiSoDol, the sodium bicarbonate, being soluble, is immediately neutralized. However, as soon as neutralization has been established, magnesium carbonate serves as a control. It remains inert until a rise in the acid content of the stomach activates this neutralizing property. The two salts maintain the balance of normal reaction in the stomach, and correct abnormal deviations.

BiSoDol has been found effective in controlling cyclic vomiting, the morning sickness of pregnancy, and alkalinizing against colds and respiratory afflictions.

In the formula are included bisacrylum substantia, antiflatulents and flavorings which enhance its value and render it acceptable to the patient.

Advertised solely to the medical and allied professions.

Let us send you literature and sample for a clinical trial.

## THE CHOICE OF THE TRAVEL-WISE

Seasoned travellers book passage by Canadian Pacific ships—the White "Empresses", the Regal "Duchesses", and the popular "Mont" and "M" ships.

They know of the comforts and pleasures of the St. Lawrence route which shortens open sea travel to only four days... they know that Canadian Pacific cuisine and service are unequalled... and they know they will associate with the "elite" of Atlantic travellers.

For full information and literature regarding regular weekly Canadian Pacific sailings apply to Canadian Pacific agents, or W. C. CASEY, General Passenger Agent, Canadian Pacific Steamships, Portage & Main, Winnipeg.

# CANADIAN PACIFIC STEAMSHIPS

"My experiments seem to point to a paracrine action for as far as the drug is specifically concerned, and an action unrelated to the thyroid and pituitary body, which is partly independent partly correlated. It seems certain that we shall find that ovarian extract shows us of little value in the treatment of cancer—in spite of a few favorable reports. However, after massive therapy or removal, the other endocrine glands are affected, as we have found uncorrelation in a way which is different from that observed in a case of the removal of one of the other glands. If however, you make use of our knowledge of the correlated changes in other glands, I believe before long we shall find a modified extract that will also be non-toxic to cancer." —Dr. G. Bell. Proc. Roy. Soc. Med., vi, p. 47.

"Come with force and irregular intervals and periods and severity, then sometimes derive much relief from medicinal extracts of diverse glands especially thyroid, spleen, and adrenals." Dr. Leonard G. Phillips, London (Brit. Med. Jour., Sept. 27, 1924, p. 262).

"It is never advisable to keep a patient for too long on a single gland substance, my experience being that a combination combination gives more lasting results." —Dr. C. V. Oliver, London (Prescriber, Feb. 1926, p. 68).

# Thyro-Ovarian Co. (HARROWER)

as the original ovarian pan-glandular formula, containing total ovarian substance with corpus luteum, thyroid, whole pituitary, and Calcium Phosphate Co.

The ingredients are of the highest quality the ovarian substance being defatted by our own special method that does not remove any of the active principle. The preferred, cyclic method of dosage is: 2, t.i.d., a.c. for ten days before menses, omit for ten days at onset of menses, 1, t.i.d. until ten days before menses; repeat.

Prescribe Thryo-Ovarian Co. (Harrower) in all forms of dysmenorrhea, including amenorrhea, dysmenorrhea, and menopausal disorders.

**ANABOLIN** is a standardized hepatic preparation for the treatment of functional hypertension. It is put up in vials of fifteen tablets and in boxes of five 1-c.c. ampules for intramuscular injection, one package—a week's supply—will prove its worth.

## AN INVALUABLE STIMULUS IN ILLNESS AND EXHAUSTION . . .

*say 99% of the medical profession*

**M**ore and more doctors are recommending Brand's FRESH MEATS JUICES of convalescence, because of their unique stimulating effect and the ease with which they can be assimilated by weakened digestive organs. 99 out of every 100 doctors recently interviewed have found that when the patient is unable or reluctant to take solid food the first course of action is to give him a liquid diet which excites the gastric juices and conserve failing strength.

**BRAND'S LIQUID PEPTONE.** A prolonged, highly concentrated liquid, prepared from prime beef and barley meal, available in all cases of stomach and bowel disease and for

recol feeding. It is especially useful in cases of chronic sickness after operations.

**BRAND'S MEAT JUICE.** The concentrated juice of freshly killed British beef prepared by a process of cold extraction and contains all uncoagulated albumen, the extractives from muscle fibres there are minerals and a higher proportion of protein than any other meat juice.

\* \* \*

*The products conform to the most stringent food and health regulations which operate in many countries. They are made from freshly killed English beef which has had thorough post and ante-mortem examination.*

## "Doctor's Orders"

*"Must take a holiday....nothing radically wrong, but getting too old for the constant grind....ease off from work....enjoy life!"*

How many men have listened to this flat and awakened to the fact that the leisure time of life has been reached, without the means to enjoy it! Even the Doctors themselves are not exempt. Unfortunate investments, financial upheavals, may shatter expectations of independence.

Yet there is a way for almost every man to ensure "Peace with Plenty" in later life:

### THE GREAT-WEST "PROSPERITY" POLICY

is specially designed to enable men to retire or enjoy freedom at 60. A moderate annual payment provides the desired monthly income or guaranteed lump sum at maturity—plus substantial profits. In the event of death, the family inherits the full benefits. Special disability privileges and other appealing features are included.

*Full information will be gladly furnished upon request*
